THE CLEARFIELD PROGRESS, CLEARFIELD, PA., WEDNESDAY EVENING, JUNE 27, 1923.

GOVERNOR, BACK ON JOB, FACES NEAR ENDLESS TASK; MUST CONSIDER MORE THAN 500 BILLS; LEWIS BUCKS AGAIN

Harrisburg, June 27.—Some of the most vexing problems of his administration faced Governor Pinchot today when he returned from his vacation. He is to spend two days here cleaning up the mass of business that has accumulated during his absence and then leave for another week in seclusion.

The first defect in the administration was raised today when Auditor General Lewis notified the Governor that he had refused to certify the payroll for departments under executive control.

Lewis takes the stand that under the code the Governor is vested with supreme authority even to the certification of every salary under him. In the elective departments this is unnecessary, according to Lewis, because those positions were unaffected by code changes.

More than 500 bills have been placed before the Governor for consideration, who has 18 days remaining out of the 30 to dispose of this business left with him by the legislature.

During his absence several hundred bills were gone over by the Attorney General and his deputies and submitted with recommendations.

The 300 hospital and institutional appropriation bills likewise confront him. These and the general appropriations bill, carrying \$83,000,000 for departmental expenses, have been passed to the house by Doctor Clyde King, the budget official, who undertook this for the Governor, while he was away. This notwithstanding \$2,000,000 has been leopped off the general bill.

CAR PREFERENCE BY RAILROADS BANNED BY I. C. C. ORDERS

Washington, D. C. June 2.—Railroads were forbidden today by the Interstate Commerce Commission to give any special supply of cars to bituminous coal mines whose product is intended for railroad fuel, or to give mines which own coal cars their own preference in car supply.

The order was issued to become effective September 1, and represented the commission's conclusions in a long controversy between railroads and mine owners over the rules now regulating the distribution of railroad cars, especially as they operate in times of shortage.

Heretofore it has been the practice of railroads to allocate equally among mines which they serve, in proportion to production capacity, such cars as have been available. At the same time mines which produce coal for railroads have been assigned additional cars for the purpose of getting out railroad fuel. In addition those mines whose owners have purchased private cars have been held under special railroad practices to be entitled to all of their own cars available and to a pro rata share of the railroads equipment in the district.

Four Commissioners Dissent
The commission divided in reaching its conclusion, and Commissioners Potter, Hall, Daniels and Cox, dissented, in whole or in part, from the majority in ordering the abolition of the assigned car practices.

The situation in reference to anthracite car supply was not touched. About \$30,000,000 has been invested by coal mine owners in private cars for coal shipment and the commission remarked in the majority decision that such investment was of "no practical utility to owners except during car shortage periods."

Many public utility companies and manufacturing and industrial corporations who also own coal cars, the commission decision said, will be deprived of the privilege of getting a

(Continued On Page Three.)

MRS. WARBURTON IS NAMED TO EMINENT PARTY POSITION

Philadelphia, June 27.—Mrs. Barclay H. Warburton, vice chairman of the Republican state committee, has been named as Pennsylvania's first woman associate member of the Republican national committee, Senator Pepper announced today.

Mrs. Warburton is the wife of Barclay H. Warburton of Philadelphia, director of public welfare. She is the daughter of the late John Wanamaker and for several years has taken an active part in political matters in Pennsylvania.

"I am deeply gratified to have been named for the place," Mrs. Warburton said when notified of having been named as vice chairman. "It seems to me that this is recognition by the Republican party of the importance of woman in the affairs of the nation."

COLLAPSE OF FLOOR SENDS 32 ORPHANS TO TERRIBLE END

Calcutta, June 27.—The bodies of 32 children have been recovered from the ruins of the Mohammedan orphanage here, where a floor collapsed beneath 250 orphans crowded into a room. Thirty-two others escaped with injuries but the exact casualties are not yet known.

Constantinople, June 27.—President Masaryk of Czechoslovakia is critically ill but his physicians are optimistic as to his chances of recovery. The Czech president's wife, a former Brookline, Massachusetts, girl, died recently.

ANCESTRAL RELICS WIPED OUT IN BIG FIRE AT PEKING

Peking, June 27.—Fire swept thru the forbidden city today. The ancient imperial historical hall containing ancestral relics of all the emperors, was destroyed, together with dozens of smaller buildings surrounding it.

Wooden plaques, upon which were carved history of dynasties, stretching back into almost forgotten ages, were destroyed by the flames and stories of many centuries before Christ were consumed.

According to seemingly conflicting reports, the fire was of incendiary origin. Servants are reported to have sold valuable curios to American and British tourists and they set fire to the ancestral hall to escape detection. Little credence is attached to the report that the fire resulted from a plot to drive the emperor from Peking. The emperor's palace was not damaged, according to police, and the emperor's life was not threatened.

Tokio, June 27.—Jane Addams of Hull House, Chicago, underwent a surgical operation at 9:00 a. m. here today.
The operation was pronounced successful and Miss Addams' recovery is expected.

TWO KILLED IN STORMS SWEEPING OVER VICINITY OF WILKES-BARRE; BOX CAR BLOWN OVER ON ONE VICTIM

Wilkes-Barre, Pa., June 27.—Two persons were killed, half a dozen injured and property damage amounting to \$300,000 was done by the severe electrical storm which swept this section last night and early today, according to reports reaching here.

Thomas Griffith, aged 36, of Plymouth, was instantly killed while working on a transformer when a

JOB HOLDERS UNDER PINCHOT MUST GIVE ASSURANCE THEY WILL STAY ON WATER WAGON; DEMANDS FIDELITY

Harrisburg, June 27.—Governor Pinchot announced today that he will exact from every appointee under his administration a pledge of obedience to the 18th Amendment and the Volstead law.

The Governor, reiterating his inaugural declaration on adherence to the dry law as "part of the law of the land," said that no one will be appointed to any position under his administration who will not give his word of honor that he will support, defend and personally obey the constitution of the United States, including the 18th Amendment and national and state laws enacted to carry that amendment into effect.

Appointees must further be in full accord with and undertake loyally to support the policies of the administration, Pinchot said.

"I do not propose to tolerate any baring from within against the policies which I was elected by the people to carry out," he said.

Elks Are Asking Help To Transport 3,000 Kiddies To The Park Tomorrow

The Transportation Committee in charge of that detail of Elks Kiddie Day, which will be featured at the Clearfield Park tomorrow would like all car owners, whether Elks or not, who can possibly do so, to be on hand at the Court House corner tomorrow morning at 10 o'clock for the purpose of helping to take the little folks to the park. It is some job to transport 3,000 kiddies and any assistance along this line will be greatly appreciated by the Elks. Also the kiddies who will be in a big rush to get there.

The Elks will look after the kiddies tomorrow but would like to have all grown ups who care to do so to take their baskets to the Park and enjoy an old fashioned picnic.

There will be music and dancing in the evening.

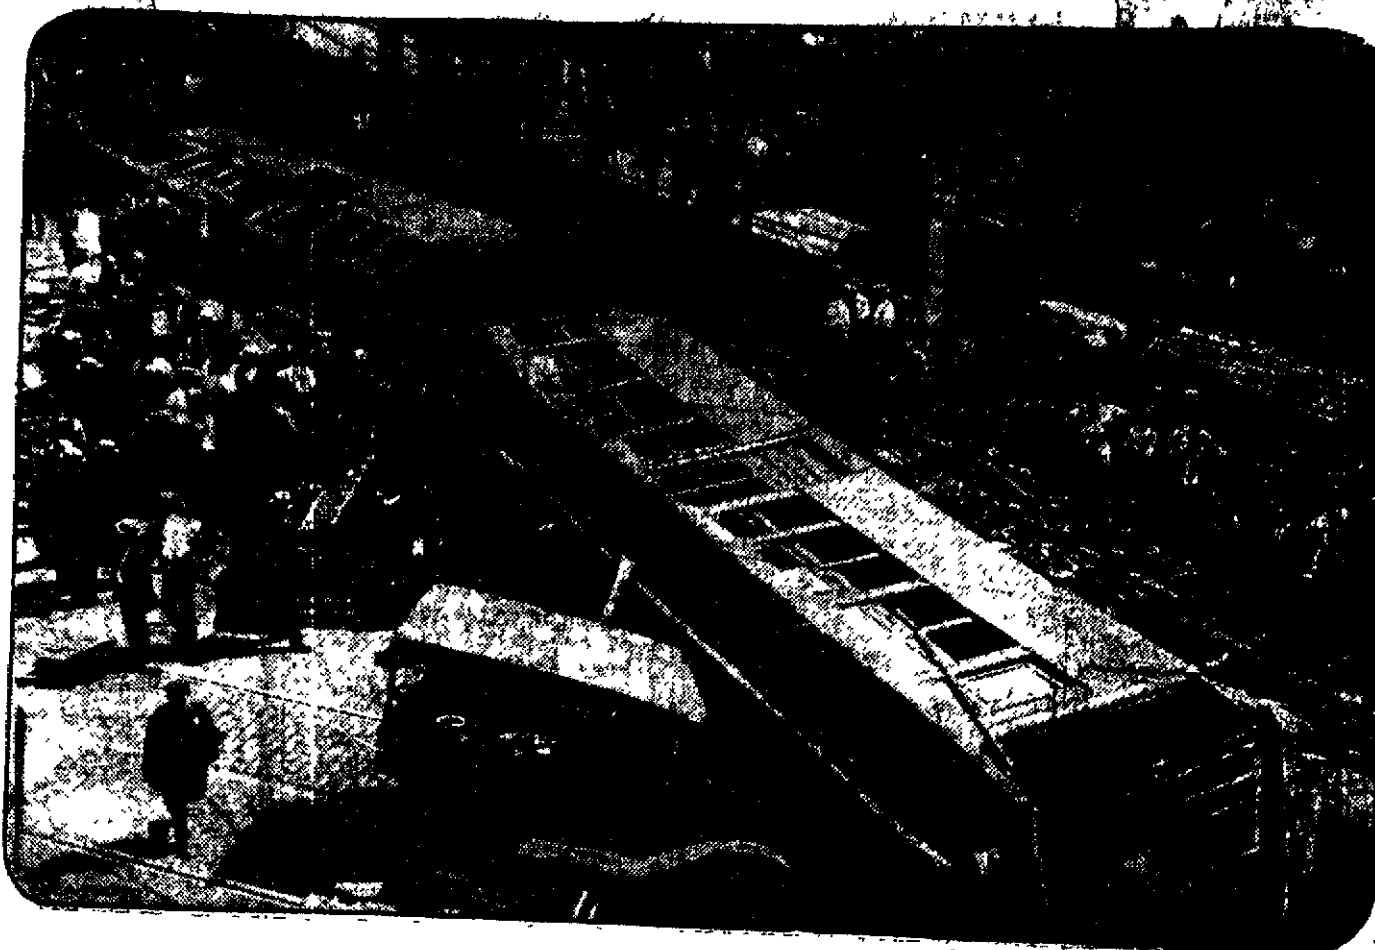

Albert Bloom of Baltimore, Md., is visiting his aunt, Mrs. C. J. Fisher on Turnpike avenue.

Much damage was done in that part of Luzerne county by the storm. Miss Frances Kelly, aged 25, of Susquehanna was crushed to death when a box car on a railroad siding was blown over upon her. Three telephone poles and fences were leveled by the winds and many houses damaged.

London, June 27.—The German mark reached 680,000 to the pound sterling shortly before noon today.

WHERE SEVEN DIED IN CRASH OF ELEVATED TRAIN

This picture was taken shortly after a two-car elevated train crashed to the street at Flatbush and Atlantic avenues, Brooklyn, N. Y., killing seven and injuring 87. Note auto truck trapped under the falling train.

HARRY MITCHELL IS HEAVY LOSER; BARN BURNED LAST NIGHT

Sixteen Head of Fine Livestock Burned In Fire of Unknown Origin During the Night.

SMALL INSURANCE

The large bank barn on the Jack Mitchell farm, located on the Ridge road beyond the Stone House farm of James Mitchell, was entirely destroyed by a fire of undetermined origin which broke out about 1:30 o'clock this morning.

The farm is owned by Harry Mitchell and was located on the opposite side of the road from and a short distance beyond the house. The fire was first discovered by a farm hand named Miller who works for M. V. Mapes at Clover Hill, half a mile away. Mr. Miller ran across the fields to the Mitchell place. He was on the scene ahead of everybody else and found the Mitchell family asleep and entirely oblivious to the destruction being wrought by the fire fiend at their very door.

When Mr. Mitchell jumped out of bed the entire barn was a mass of flames, while the squealing and noise made by the cattle and horses being roasted to death were appalling.

The out of town fire alarm was sounded here at 1:55 and a large number of firemen and citizens went to the scene and assisted in saving the house and outbuildings in the neighborhood of the barn.

The barn and a large silo immediately adjoining were quickly consumed, while eleven head of fine milch cows, two calves, three valuable horses and a number of chickens were also burned to death. In addition to the livestock, a gasoline engine and full complement of farm implements were also destroyed.

Mr. Mitchell is unable to account for the origin of the blaze as there

COWDRICK PITCHES PIERCE'S OUTFIT TO BIG VICTORY

"Y" Secretary Has Put Real Team in Harness; Adrian, Pride of Punxsy Region, Falls Hard.

DESERVE SUPPORT

Manager Pierce's American Legion team hid themselves over to Adrian yesterday afternoon and won an intensely interesting game of baseball from the Adrian team. The game developed into a pitcher's battle between Guy Cowdrick and Ryba in which the former won out by the narrow margin of a 1 to 0 score.

Adrian got but four hits off Cowdrick, who pitched the best game of the season for Clearfield. Ryba was almost equally as effective as our sluggers got but five hits off him. Peterson at short and Catcher Shaulis were the fielding stars for the locals.

WILL TAKE GAS IN AIR IN EFFORT TO STAY IN FLIGHT FOR FOUR DAYS; TESTING OUT NEW FUELING DEVICE

San Diego, Cal. June 27.—At 4:05 a. m. today Captain Lowell Smith and Lieutenant John P. Richter took off in an army airplane in an attempt to remain aloft for four days. If they succeed in this exploit, all existing records for sustained flight will be matched.

The projected endurance trip was made possible by perfection of a plan to re-fuel the airplane while in flight. In preliminary trials 50 gallons of gasoline were passed from one plane into the fuel tank of the other while both were traveling 90 miles an hour. This system will be used in the test which started today.

MONSTER PARADE FOURTH OF JULY NOW A CERTAINTY

Business Men Committee Forward Strong Wishes Promises to Make The Year Eclipse Other

EVERYBODY ENJOY

For the last two years the American Legion local post has been in touch with the business men of Clearfield and the surrounding communities as a part of the Legion's 4th of July celebration, a monster industrial parade which has been a credit to the town and the community.

This year the Legion post which they began their 4th of July plans feeling that the business people of the community had responded so well in the past and had gone to considerable expense in order to place the exhibits in the parade, seriously considered dispensing with that part of the celebration and had about decided to give to the people of the community only a small parade of veterans organizations and bands; but information was received from several sources that the majority of the business people not only desired but expected to be asked to do their part in the furnishing to the community a parade worth having. So the plan was changed and on the 4th of July 1923, the Legion's Independence Day celebration will be opened by a parade bigger and better than ever before.

Cards were sent to business people and they were requested to advise whether or not they desired to send exhibits in this parade. The response has been tremendous. A partial list has been printed in the Progress and a supplementary list will be printed later. There will be more floats from more organizations represented in the parade than ever before. The Legion has secured bands from Curwensville, Grampian, Woodland and Wallace to assist our own local Italian and American Legion Bands in furnishing plenty of music for the parade and band concerts at the park afterwards. The Legion itself will turn out in army uniform for probably the last time in Clearfield as the old O. D. J. getting badly moth-eaten and wrinkled.

All that the Legion and the business people of Clearfield ask of the citizens of Clearfield and community is that they turn up in tremendous numbers to witness this spectacle. It will be worth coming miles to see.

DEMPSEY HOLDS OUT FOR FULL PAYMENT AT SHELBY, MONT.

Great Falls, Mont., June 27.—Jack Dempsey, world heavyweight title holder, may blow from the state of Montana without striking a lick if Tommy Gibbons, the challenger, risks or \$200,000.

Jack Kearns departed last night for Shelby to grapple with the promoters over the issue of whether Dempsey will wait the third installment of \$100,000. If Kearns refuses to shift the present price and the promoters fail to come across with the third installment of \$100,000, Dempsey has the right to come back home and there is no feeling to deter him. So uncertain has the fight become that Kearns stated the motion picture rights were worth only about \$15,000 and possibly not that.

Navy Yard Workers Get A Ten Per Cent Increase In Wages, Effective 1st

Washington, June 27.—Workers in navy yards throughout the country will be given a general ten per cent advance in wages, it was learned today, effective July 1. Secretary Denby has approved a report of the Navy Wage Board, headed by Rear Admiral Robinson, and the new wage scale will be promulgated Saturday.

Myer Ganz of New York transacted business here yesterday.

THE OLD HOME TOWN

was no light or fire of any kind in or about the barn. Last evening he hauled three small loads of hay into the barn, in fact the loaded wagon was left standing on the barn floor, and it is thought the fire was due to spontaneous combustion from the new hay. The idea was advanced by some that the fire was caused by lightning, but at the time the fire broke out the heavens were clear as a bell and no sign of electrical storm existed.

Mr. Mitchell's loss will amount to six or eight thousand dollars, with but \$2,100 insurance.

To Be Happy at Work.

If you are the sort of woman who cannot work well except under pleasant conditions, it is economy to buy the things that mean this to you. It may only be pretty curtains, light woodwork or a certain kind of wallpaper, but it means everything to certain types of women and results in much more being accomplished.

Rushin on Cheapness.

"All works of quality must bear a price in proportion to the time, skill, expense and risk attending their manufacture. Those things called 'cheap' are often when just estimated, the cheapest, they are attended with much less profit to the artist than those things which everybody calls cheap."—John Ruskin

WEDDING GIFTS

There are always weddings and you'll find that we have a lot of gifts for the occasion here that will be appropriate in every sense of the word.

There's no use in putting a vast amount of money in a gift of this sort when we have a wonderful array of them here at prices that will be surprisingly low after you have shopped around and seen others.

Come in any time and make your selections. A small deposit holds the gift until you are ready for it.

ELEVEN BURIED IN COLLAPSE OF WALL AT PHILADELPHIA

Philadelphia, June 27.—One man was killed and three others seriously injured today when the walls of a building being razed at 17th and Addison streets collapsed without warning, according to the police.

Eleven men, all negroes, were working on the building when the walls buckled. Five of the workmen were buried under tons of debris. Firemen dug feverishly in the ruins to release the men. William Smith, aged 42, died before rescuers reached him.

Wise Child.

It's a wise child that pretends it can't understand the words its parents spell to one another.—San Francisco Chronicle

THE MORE MILK YOU DRINK THE BETTER YOU WILL FEEL

That is the verdict of hundreds of people who have started in on a diet which is composed mostly of our milk. They have been feeling sort of run down and as if they didn't care whether school kept or not. They have started in on the milk and right soon they have started to feel a whole lot better.

The milk they drank comes from farms where the cows are fed for a high powered milk. This milk comes to our plant and goes through the pasteurization process, which eliminates the possibility of disease.

Start in yourself and feel better.

Valuable Gum Mines.
Probably the only gum mines in the world are in New Zealand, where there is a whole district in which fossilized gum from trees that died centuries ago is found a few feet below the surface. The substance is valuable, for it makes the best kind of transparent varnish, and many fortunes have been made by men who have worked it.

Thought for the Day.
If your boss doesn't see that you are worth more until another office offers you more, you had better work for the man to the better pay right.

Why Bluebirds Are Welcome.
Bluebirds are a good omen when
they build near your home, for they
will not build where there is strife.
According to the old English saying,
a young married couple may look for-
ward to happy married life if a pair
of bluebirds sets up housekeeping with
them.

Friendly Philosophy.
Nature punishes neglect and plays
as favorites. The neglected field be-
comes an unsightly mass of tangled
brambles and rank weeds; the undrained
swamp a stagnant cesspool—repulsive
breeds place of varied life and poison-
ous growth; the human brain an un-
clean generator of falsity and soul-
destroying ideals unless directed into
channels of realism and truth. Neg-
lect is indeed costly.—J. E. F.

ODDS AND ENDS AND THINGS

By J. D. C.

The first day for circulating non-
nominating petitions for the coming fall
primary election is Thursday, July
12th. No nominating petition can be
legally signed before that date and the
County Commissioners, whose
duty it is to supply these blanks to
the candidates for office at the pri-
mary are not allowed to issue any
such blank previous to July 12th.
When signed and sworn to the blanks
must be filed in the office of the County
Commissioners not later than
Tuesday, August 21st, which is the
last day for filing.

People are becoming more humane
in their treatment of dumb animals,
according to F. E. Hutchinson, man-
ager of the Detroit Humane Society,
basing the statement upon personal
observations over a period of many
years, and upon letters from those
engaged in similar work in various
cities of the country.

"There are two reasons for the suc-
cess of the humane movement," Man-
ager Hutchinson said. "The most im-
portant work is being carried on in
the public schools. School children are
being drilled from the kindergarten
on, that it is manly and womanly to
be kind to all helpless creatures."

"As a result boys and girls are
looking out for the interest of the
birds and animals as never before.
They personally are watering and
feeding animals in need of attention
and do not hesitate to call to the at-
tention of the proper authorities any
cases of inhumane treatment they ob-
serve."

"The second reason is that men
dealing in animals have discovered
that it pays in dollars and cents to
be humane. Cattle buyers are begin-
ning to insist that the animals under
their charge be humanely treated. To
do otherwise decreases the value of
the cattle and brings them heavy
losses. Some of the animal dealers
now are our warmest exponents of
humane treatment of animals. They
are compelling their employees to
practice this.

"There is still another reason and
that is the American spirit of fair
play. No normal American cares to
injure anything that cannot fight
back."

Cholera, plague, typhus, typhoid
fever, tuberculosis and malaria
have at last become controllable, says
Sir George Newman, chief medical
officer of the British Government. The
antitoxin treatment of diphtheria has
reduced the death-rate in that disease
from 29.8 per cent in 1890 to 9.3 per
cent in 1922, which means that 200
additional lives are saved in every
1,000 cases. In 1871 enteric fever
claimed 374 lives in each million of
the population; in 1922 it was twelve
in each million.

"We are living in the golden age of
medicine," says Sir George. "Unper-
ceived it is rapidly changing the face
of the world and the destinies of men.
The extension of the frontiers of life
is assisted by fresh air and sunlight
in dwellings, sanitation of workshops,
wholesome water and food supply,
and the isolation of infectious per-
sons. The result of this is seen in
the fact that every child born today
has an expectation of twelve years
more life than had his grandfathers."

Ancient Manuscripts.
The oldest manuscript written on
cotton paper in England is in the Brit-
ish museum and bears the date of
1049. The most ancient manuscript
on the same material in the Library
of Paris is dated 1050. In 1085 A. D.
the Christian successors of the Span-
ish Saracens made paper of rags in-
stead of raw cotton, which is recog-
nized by its yellowness and brittle
ness.

Diakka an Evil Spirit.
Diakka is a very evil and powerful
spirit corresponding in some respects
with the Jinn. In Mohammedan mys-
thology the Jinn are good and bad spir-
its who assume the form of animals,
plants, etc. In this same mythology
there are also the Janms or demon
of the lowest order. On old Persian
tales they are referred to as the Ahrim
but Longfellow, in his "Golden Mile-
stone" (stanza 2), refers to them as
belonging to Arabian story.—Literary
Digest.

Not All of Fishing to Fish.
The fisherman whose catching of
fish causes him to forget his sur-
roundings, blinds his eyes to the beau-
ties of Nature, and drenches his ears
to the music of the wild, is no angler
—O. W. Smith.

Rainy Day Treasures.
Rainy days may be brightened for
the child if he has a scrapbook which
he uses on rainy days only. This
may be made of cambric, pages about
9 by 12 inches in size, stitched to-
gether. Magazines and picture post-
cards may be saved for these days,
and the child may cut out and paste
for many long periods, with great
pleasure.

LEITZINGER BROS.

Car Preference

Continued from Page One

special supply in such equipment in
times of coal or car shortage. Their
equipment also must be distributed
pro rata among mines and not fur-
nished to any mine from which they
purchase coal in addition to the
mines pro rata share of the rail-
roads' own cars.

Private coal car ownership, the
commission held, would result "in in-
creasing gross inequality" between
users of coal, if the special assign-
ment rules were allowed to continue.
There also might result, it was de-
clared, a practice of installing pri-
vately owned locomotives and pri-
vately employed train crews.

Commissioner Potter, in a dissent
said the commission in the case be-
fore it had "one of the roots of eco-
nomic and industrial disturbance"
but had "only nurtured the evil and
attempted to find a way to get along
in spite of it."

Sees Conditions Getting Worse
"The conditions that prevail in
the bituminous coal industry," he
declared, "have been going from bad
to worse during the last decade.

They are a wasteful burden on eco-
nomic life and breed discontent in our
social order. The allurements of
profits have led to gross over expan-
sion. Excess capacity beyond what
the market demands means idleness
in the same ratio of mines, equip-
ment and men.

"Mines cannot run full time be-
cause 11,000,000 or 12,000,000 tons
of coal a week for a considerable
period would glut the market. They,
therefore, run only two or three days
a week. In order to support men
working on half-time costs per ton
have so increased that mine wages
are out of all proper relation to
wages paid on the farm and by rail-
roads and other industries. Com-
mon laborers make \$7.50 a day;
loaders make from \$15 to \$18 a day;
runners of cutting machines make
from \$18 to \$20 a day; runners of
gathering locomotives make from

\$18 to \$20 a day. The result is that
to produce coal is costing upwards
of \$2 a ton, whereas 10 years ago it
was costing about 75 cents a ton.

"Reduction of high coal production
costs," Mr. Potter asserted, "is a
public necessity. A sustained sur-
plus of coal will bring reduction.
Everything is favorable for that sur-
plus except transportation. The im-
mediate answer to the problem is the
assigned and private car. They will
bring about continuous operation of
efficient mines at low cost. Men
would drift to mines thus continu-
ously operated, which is what should
take place. High cost mines would
have to shut down and that is ex-
actly what the situation calls for."

Stands Up for Mother.
Martha, age four, was playing in
the room where her father and mother
were having an argument along the
lines of "I'd be in favor of that."
"Well, I wouldn't," etc. She stopped
playing, went to her father and said:
"Now, daddy I want you to under-
stand that mamma is boss in this
house."

BATHING CAPS

Madam, when you go
for your cooling dip in the
river or in the "Y" pool,
we have the rubber caps
here that will keep your
hair dry. We have a wide
variety of caps, both as to
colors and styles.
Come and get yours
while the stock is wider.

The new state code is certain to have its "growing pains." All infants do. It would not be a good omen if, under the new code, there would be no fiction, no groaning, no, rather, a hopeful sign when squeals are heard. If the change from the old system to the new could take place without a lot of vexatious problems arising it would hardly be worthwhile.

Truly a great task confronts the Governor. He has over a hundred bills to look over and approve or disapprove. In between times he must see that the provisions of the code are being carried out. "Grandma" Lewis, who does not like the idea of Mr. Pinchot taking his "cheed," the business of the state, out of his hands, is holding up his arms and gesticulating with great alarm.

He need have no fears—yet. The affair is in good hands. There will come a time, however, under this same code, when the people of Pennsylvania will wish that the responsibility had more on departmental heads than with one man. It will be Mr. Lewis to shout then.

OUR RAILROADS
By Dr. Frank Crane
(Courtesy the New York Globe.)

It is about time that "We, the people," realized that the roads of the country are our railroads.

They do not belong to somebody else with whom we are making a bargain. They are an integral part of every man's business.

There is not a mouthful you eat, a bit of clothes you wear, any tools you may employ, that are not directly or indirectly affected by the railroads.

Transportation is the very life blood of modern civilization. Not only the comforts we enjoy, but the degree of culture to which we have attained is entirely dependent upon the swift and smooth transfer of both goods and people from one section to another.

Whether the dominant interest of the whole public in railroads shall be owned and operated by the Government or not is a question that has not yet been worked out. But no one can deny that every railroad, being in the nature of a public highway, is, at least, quasi public.

Our immediate duty, the duty of every citizen, is not to champion public ownership, not to form his own opinion about these things, and be willing to wreck everything to maintain his opinion, but to take such an attitude on the whole subject as shall enable the situation to be worked out without violence or loss by the normal processes of business and government.

The disposition to attack the railroads is deplorable. Eliaha Lee, vice-president of the eastern region of the Pennsylvania Railroad System, in an address the other day at Philadelphia, said these strong words:

"Plans are being laid to make the railroads the football politics with the re-assembling of Congress next fall, and again in the presidential campaign of 1924. To speak in plain language, there are men who, for the sake of the votes necessary to get or hold a political job, would be willing to wreck the railroads at the very moment when the country needs their services as never before.

There is no question of intentions. They have been proclaimed openly. Any man for the sake of office and power will play sectional or class prejudices against each other for the purpose of precipitating a breakdown of the railroads at this critical period is morally, if not in the exact legal sense, guilty of treason against his country. I know that is a strong statement. I have considered it carefully and believe it is fully warranted by the facts."

We do not want railroads to own the country, and we do not want great wealth units to use railroads to oppress the country. But neither do we want, in order to strike at some man or groups of men we suspect, to cripple or hinder the great business of transportation, upon which the prosperity of the whole nation depends.

It is all right to smash your opponent on the nose if you can do it and you think he needs it; it is quite another matter to cut off your nose to spite your face.

IT IS THE BANK'S DUTY TO ENCOURAGE THRIFT

While the County National is primarily a commercial bank, it is not unmindful of the duty of the bank to encourage thrift.

With that end in view it has a well organized Savings Department which welcomes the accounts of savers, however small or large they may be.

On such accounts 3% interest, compounded semi-annually, is paid.

The Savings Department has deposits of over \$1,480,000.00.

The Savings Department conducts a Christmas Savings Club with 667 members for 1923.

Your Savings Account is invited.

Capital, Surplus and Profits Over \$1,300,000.

Million Dollar Rain Fall Over In DuBois, Where They Grow Strawberries

DuBois, June 27.—One of those "million dollar" rains prevailed yesterday afternoon, and this time DuBois was favored by the weather man, receiving the full benefit of the down-pour. The rain came a little too rapidly for properly soaking, but at that the soil was given the best bath that it has received for several weeks. There were several showers during the afternoon but the heaviest came along about three o'clock, and continued for fifteen minutes.

The rain laid the dust in fine shape and it was excellent driving right after the showers.

Contrary to expectations following a heated spell, the breakup was not accompanied by severe thunder, and lightning storms as is usually the case. It was rather a mild-mannered storm, and no damage was done by the lightning, so far as was reported.

For a few minutes during the afternoon hail fell, but not to any great extent, and no damage was done by it. This hail and rain served to cool the atmosphere somewhat, and it was decidedly cooler last evening.

OLD TIMER VISITS TOWN

Mr. and Mrs. John Wilhelm, of Williamsport, were guests of his sister, Mrs. E. F. McLaughlin, of South Fourth street, while in town today. John Wilhelm is a former Clearfielder who left here almost two score years ago. He located in Williamsport, where he engaged in business most successfully and a few weeks ago disposed of his business and expects to enjoy the remainder of his life living retired. He met a lot of old timers while here who were pleased to meet and greet him.

Strange Experience.
Riding atop the bus a limb of a tree whipped over my glasses, cord and all. Several weeks later while walking through the park with a companion through the park with a companion my glasses, in perfect condition, fell into my parcel which I had lowered to avoid the limb of a tree Journal.

People You Dislike.
I never know which class inspires more horror in me—the people who tell you things you did know of the people who tell you things you didn't. The former insult one's intelligence, the latter one's luck of it—From "Memories of the Future" by H. A. Knox.

In the Long Ago.
Roger had spent a last summer work in the country, and a few days ago we stopped at this same farm. The dog barked, wagged its tail and jumping upon Roger, tried to lick the lad's face. Delighted with such welcome, Roger very earnestly said, "Sheep" members me when I was a boy."

Only One Blonde.
Bobby came running home the other day in an excited fashion and breathlessly exclaimed to his mother: "There are four new kittens at Kenneth's house, mother—three brunettes and the prettiest 'babe blonde'!"

Holding an 18-Year-Old Baby.
It is amusing to see an old bachelor holding a baby, especially if she is a beauty.

Whitfield, Wanted For Murder Of Policeman, Is Caught At Detroit

Detroit, June 26.—Cornered by 25 policemen and detectives in a Michigan avenue lumber yard, where for several weeks he has been working as foreman of drivers, John L. Whitfield, wanted in Cleveland, O., for the murder of Patrolman Dennis Griffith, was captured tonight.

Whitfield was traced here from Madison, Wisconsin, through Chicago by Detective Lieutenant Charles Neville of the Cleveland police.

Neville and a squadron of police, heavily armed with revolvers and riot guns, surrounded the plant of the Kern coal and lumber company late today. When men with riot guns had been placed about the yards, Neville accosted Whitfield, who was walking through the yard. Whitfield was startled and made a dash towards a small office nearby. Neville poked a revolver against the fugitive's head and ordered him to hold up his hands. Whitfield then was handcuffed and taken to police headquarters.

Whitfield told officers he would waive extradition and "take his chances" in the Cleveland courts.

NOTICE HORSESHOE WARD CHAIRMEN

The President of the Horse Shoe Club asks all the ward chairmen to turn in their lists of new members so that the tournament schedule can be drawn up and regular playing begun. It is expected to have a more central court so that the games will be accessible to more spectators.

MAY BRINGS SALES OF 171,306 FORDS

Production Only Limiting Factor to Deliveries, So Great Is the Demand.

Detroit, Mich., June 27.—Sales of Ford cars and trucks in the United States for the month of May totaled 171,306 according to a report just issued by the Ford Motor Company.

The May sales were more than 5,600 greater than those of April, due to increased output.

Production has been the only limiting factor in the sales of Ford cars and trucks since January, for at all times orders on hand have been in excess of the manufacturing capacity of the company, great as it is.

The high production schedule which has been in effect the last few months, however, permitted May to show a gain of 44,243 retail deliveries over the corresponding month last year and it marks the fourteenth consecutive month in which sales have gone above 100,000.

May deliveries bring the total of Ford sales in the country up to 732,850 cars and trucks for the five months from January 1 to June 1, an increase of \$232,005 over the same months a year ago, and presenting a record-breaking sales figure.

Under the constantly growing demand, Ford sales for the present year will pass the million mark in July, a figure which would already have been attained had it been possible for the company to bring production up to the orders.—Ad.

Progress Editorial For Women

VACATION WISE
By FLORENCE DAVIES
Are you really vacation-wise or do you follow the beaten path?
To be vacation-wise, you must know what kind of a vacation suits you, and not be content merely to follow the crowd.

There's only one way to know what sort of vacation suits you and that is to begin with the fact that the mind is more important than the body.

If you have a rested mind you won't need to worry about your body. It will take care of itself.

A well-known doctor says that what people need on their vacations is to get their minds rested.

You don't do that the way you rest your body, by sitting still or taking a nap. You rest your mind by a mental change.

The society debutante, whose hardest work lies in dodging tens and dences, gets the best vacation by paying a little attention to her mental health, says Surgeon General A. Cumming of the United States Public Health Service.

That's something for the tired business woman and the busy housewife to think about.

The tired business woman who sees people all day long is very apt to stock up with good clothes and go to a big city or a big resort and think she is having a wonderful time.

What she needs is a self-inflicted exile from all human kind—quiet, stillness, sky, mountains, sea. That's

the best kind of flight-about-face for average business woman. But it's different with most mothers and housewives. They see just the same people, their husbands and children, every day.

You imagine that they need a week in the country with nothing to do, no dish washing or cooking or mending.

That's well enough for their tired bodies, but how about their minds, which are fed up with monotony?

What they want is a mental flip-flop—people, parks, even crowds, a little gaiety.

"Why," said one tired busy mother, "I'd like to get out and act foolish, I'd like to eat peanuts and popcorn, and end up at a circus or a dance."

That mother knew what she was talking about. She could let the dishes stand and rest her body after she got back home. What she needed was some mental gymnastics which would iron out the old creases in her mind.

Stop right now in your vacation plans and see if you are going to rest your body or your mind. Then don't forget that minds don't rest by inaction. They rest by change.

If you haven't read a novel for a year, read one.

If you have read a novel every week, try a little history. And remember, above everything else, that minds, not bodies, need to have vacations.

BANK WILL RECEIVE CONTRIBUTIONS

Any person desiring to contribute to the Clearfield Italian Band may make their check payable to the band and mail or turn same in to the Clearfield National Bank, where proper credit will be given.

WILL REMOVE TO NEWBERRY, PA.

Mr. and Mrs. Leslie F. Hopfer, who recently disposed of their ten acre farm in Lawrence township, will leave with their family on Sunday next for Newberry, Pa., where they will reside in the future and where they have purchased a home. Mr. Hopfer is employed in a Williamsport printing office.

The Average Man.
After saying, "I don't want to and fault," the average man proceeds to pick a flaw.

Political Announcements

The Progress is authorized to announce the following names of candidates for public office subject to the decision of the voters at the Election to be called for September 18th 1923.

Curwensville's Own Column

A congenial picnic was held out at the "Pee-Wee's Nest" last Saturday composed of William Post and the members of his immediate family. Those in attendance were Mr. and Mrs. Wm. Post, this place; Denjamia Post and family, Hyde City; Clarence Post and family, of Gramplan; Ernest Post and family and Miss Annie Post of Curwensville. It was a sort of a family reunion as well as a celebration in honor of Mrs. Wm. Post's 53rd birthday.

Mr. and Mrs. Ed Kennedy, of Du Bois drove over to Curwensville on Sabbath and spent the day with Mrs. Kennedy's parents Mr. and Mrs. I. A. Shaffer, East George street.

Father P. A. Lynch, pastor of St. Timothy Catholic church, went up to Boardman last Sunday and blessed a new Catholic cemetery. A large number of his congregation, as well as people of other denominations, were present and witnessed this solemn and appropriate ceremony relative to the Catholic church discipline.

Dr. Miles Wall who owns and possesses the best and most accurate weather thermometer in this section and who keeps a close tab on its registration every day, informs us that for the past twelve days the degrees of heat has averaged 95. On last Friday the mercury rod outdid itself by pointing to the 102 mark, the hottest day that has been in these mountains for many years.

William Post and wife accompanied by his son, Benjamin Post and wife and Miss Annie Post left yesterday by motor car for a month's visit to the old home folks at Harrison, Ontario, Mr. Wm. Post's native home. After spending a few days at this point, William Post will journey to his old home at Belleville, Canada, for a short stay.

S. C. Watts at a recent Sunday School convention was chosen as a delegate to represent the Clearfield county schools in Scotland, where a National convention is to be held in June, 1924.

A relative of the deceased sends us the following clipping from the Philadelphia Ledger: "Last Thursday Tamadge Port, thirty-two years old, was drowned in Perkiomen Creek, at Collegeville, while giving swimming lessons to Miss Blanche Hammond of Morristown. Mr. Port lives at Centre Point. He was seized with cramps. Friends rescued Miss Hammond." With his parents the unfortunate young man resided in Curwensville in his youth, and was a son of Mr. and Mrs. W. S. Port. He was a nephew of Mrs. A. M. Kirk, of this place. His funeral was held last Saturday and the body interred at Norristown, the home of his parents.

We have been informed that Mr. Black, who so ably coached the High School foot ball team last season, will be chosen as one of the instructors in the High School building for the incoming term. He is an able man not only in teaching school lore but also in instructing a foot ball team and leading them to victory. It would be a good move of the School Board if they could secure his services.

Mr. Stanley Kujawa, who holds an important position as a pharmacist in one of the large drug stores in Pittsburgh, is home for a few weeks stay with his parents, Mr. and Mrs. J. A. Kujawa.

O. C. Norris drove his car to Pitt-

Stop that Eczema!

AMAZING results have been produced by S. S. S. in cases of eczema, pimples, blackheads and other skin eruptions. If you have been troubled with eczema, and you have used skin applications without number, make a test yourself, on yourself with a bottle of S. S. S., one of the most powerful blood cleansers known. S. S. S. makes the blood rich and pure, and when your blood is freed of impurities your stubborn eczema, rash, tetter, skin eruptions, pimples, blackheads, blotches and acne are bound to disappear. There are no unproven theories about S. S. S.; the scientific results of each of its purely vegetable medicinal ingredients are admitted by authorities.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

S.S.S. The World's Best Blood Medicine

burgh last Saturday and on returning on Monday brought his daughter, Mrs. David Dunn along, who will remain in Curwensville until after the Fourth.

Roy Thompson, employed in the Hollidaysburg sanitarium as mail carrier and general helper, was a Curwensville visitor at the Sawtelle home on North Filbert street. He is on a vacation tour and arrived here after a visit in Cleveland, O.

Mr. and Mrs. John McLaughlin and daughter, Mary, left Curwensville yesterday with Ira McCloskey driving the car, for Williamsport and Endicott, N. Y.

Rex McCreary, a foreman in the Harbison-Walker brick plant at Mill Hall, is in Curwensville on a visit to relatives and old friends.

Mrs. Grover Bloom and two children, Ridge avenue, departed on the 8 o'clock a. m. train yesterday for a thirty day visit with relatives in Endicott, N. Y.

Mrs. Milliron, of Dayton, Pa., is a guest in the home of her son, James Milliron, on Scofield street.

Additional Tea Tables

Mr. and Mrs. Samuel Love, Mr. and Mrs. Miles McGarvey and children, and Mrs. May Miles and children of Irvona, spent Sunday with Mr. and Mrs. Victor Stephens, of Mineral Springs.

Mrs. Frances K. Mapes of Clover Hill Farms was a member of the graduating class of Temple University this year. Miss Mapes is now visiting her sister Mrs. Clair Dufford of Abbotville, Ala., and will return to Pennsylvania with Mr. and Mrs. Dufford the latter part of the month.

Mrs. Homer McDowell and two little girls have returned from a visit with Mr. McDowell's parents, Wm. McDowell of Woodland.

Subscribe for the Progress

HEARD ALONG THE BANKS OF THE MOSHANNON

John H. Wade, 21 years of age, passed away at the home of his parents, Mr. and Mrs. William Wade, at Derby Hill, on Monday night at 10:35 o'clock, the result of a tumor on the brain. The deceased had been ailing with rheumatism for some time past and during that time took treatment at the Harrisburg Hospital. He returned home from the latter place after he had been there only a week, and was then somewhat improved. On Monday, June 11th, it was necessary for him to be confined to his bed, and from then on he gradually became worse, death relieving him of his sufferings at the above stated time.

John Hough Wade was born at Gearhartsville and practically his entire life had been spent in that vicinity. He was known for miles around as a fine type of young manhood, kindly disposed and always thoughtful of others. He was liked by all who knew him. His death was a sad blow to his young friends. Adding to the sadness of his passing is the fact that he was engaged to be married, the event to have taken place in the near future.

Besides his parents, these brothers and sisters survive. Mrs. Jos. A. Black, Irvona; Mrs. Jos. Middleton, Cuba Mines; Herschel Wade, West Decatur; Mrs. Chas. J. Hartle, Munson; Clifford, Irvona, and Horace, Martha, Lytle and LeRoy at home. Funeral services will be held Thursday afternoon at 2:30 from the Baptist church, Philipsburg, of which he was a devoted member. Burial will be made in the Philipsburg cemetery.

"Aunt Fannie" Gwland, well known hereabouts as one of the kindest hearted ladies when it comes to doing things for others, helping fire-

Mr. and Mrs. R. P. Dunsmore, of Philipsburg, were shopping in our stores yesterday.

men in their benefit affairs and in all the community welfare events, while at Curwensville Monday night had the misfortune to fall backwards from a porch and sustained a broken shoulder bone with another fracture. The news of the same was very much regretted by her numerous friends here. However, they hope for her speedy and ultimate recovery.

The Daily Vacation Bible school here is attracting a large number of children, the attendance of the beginners at the M. E. church Tuesday being 76 primary and 47 kindergarten at the Church of Christ 294 juniors and 85 intermediates. The vacation school this year is a union affair.

Gust Johnson, who for many years has been the ice cream manufacturer at Winburne, has now taken over the Continental Hotel, Philipsburg and will convert it into an ice cream factory. The consideration of the deal was \$9,000. Philipsburg at the completion of the remodeling work on the newly purchased building will then have two ice cream factories—Hoffman & Runk being the other manufacturers. We bespeak success for Mr. Johnson in his new venture. He will continue to have the Winburne factory in operation.

JOINT-EASE-FOR BURNING FEET

Now that we know that aching, burning feet are caused by trouble in the small bones in the arches of the feet—

And that trouble can only be reached by Joint-Ease, a stainless emollient that soaks right in through skin and flesh direct to the joints and ligaments.

Isn't it about time to discard powders and medicated baths that only reach the outside of the skin?

And rub on Joint-Ease, that in two minutes starts to soothe and heal the inside troubles that cause soreness and burning.

Rub it on tonight and if there is a burning left in the morning it won't be enough to bother. All druggists. A tube, 60 cents.

One MILLION

MORE than one million automobiles now have been built and sold by Willys-Overland.

Many of these Overlands and Willys-Knights are playing a tremendous part in the life of our own community—putting our families on swift wheels—multiplying the earning power of our men—lightening the work of our women—carrying our children to school—bringing our people together.

Today's Overland and Willys-Knight cars are the best automobiles Willys-Overland ever built—and are sold at the lowest price. All past achievements are excelled in beauty, comfort and performance—in the giving of real value.

Reflecting such quality, sales this season are the greatest in our history. The public has registered its appreciation of great value.

Overland Models: Touring \$525, Roadster \$525, Coupe \$795, Sedan \$860, Red Bird \$750. Willys-Knight Models: 5-pass. Touring \$1235, 3-pass. Roadster \$1245, 7-pass. Touring \$1435, 5-pass. Country Club \$1635, 5-pass. Coupe-Sedan \$1595, 5-pass. Sedan \$1795, 7-pass. Sedan \$1995, all prices f.o.b. Toledo. We reserve the right to change prices and specifications without notice.

Tom Sims
SAYS---

When you see a man looking at the thermometer and laughing he is some soft drink dealer.

The stiff collar is doomed. You can't watch an airplane in one.

More girls are swimming this year. Every bathing place looks like a flock of magazine covers.

Crowds on street corners are not talking politics. They are trying to get across.

Kissing is dangerous. Too much of it will make a man cross-eyed.

President Harding, apparently thinking he has a steady job, has sold his newspaper.

Since most banks already had presidents, many of the June college graduates are still loafing.

Canada is nearly 30 times as large as Great Britain and Ireland, and 40 times as quiet.

New German radio invention stops autos. Maybe some day it will stop photographs.

This 2,000,000 volt lightning made at Pittsfield, Mass., would be nice to have collectors.

Brokers who took \$6,000,000 must serve a year. About \$500,000 a month is fairly good pay.

Prince of Wales got in at two o'clock and smashed a skylight, over where prohibition is unknown.

Privilege in Friendship. If ever a man is to be a real anything, the sense of privilege will be the sign. A physician to whom doctoring is not a privilege is no real physician. A teacher to whom teaching is not a privilege is no real teacher. A friend to whom friendship is not a privilege is no real friend.

Harry Emerson Fosdick. Fifty per cent of our walking sticks come from English hedges. Particularly in Herefordshire and Worcester-shire there are miles of hedges which are allowed to grow so tall that the maples build in them. The man who supplies sticks in the rough pays the farmer a mutually agreed-upon sum per hundred for the privilege of cutting them, and these, roughly trimmed and still green, he sells to the manufacturer in the town.—London Daily Mail.

Rotten Time, Promised. A Japanese invitation to dinner frequently runs as follows: "I beg your pardon for thus insulting you in begging your company at my house to dinner. The house is very small and very dirty. Our habits are rude, and you may not get anything fit to eat, and yet I hope that you will condescend to be present with us at 6 o'clock." You go, and you find everything exactly the opposite.—Boston Transcript.

The Ananias Club. "I never bawl out my husband for dropping cigar ashes on the carpet or jerking back the lace curtains so he can see out or using the guest towel, or things like that, because I want him to feel his home is a place he is free to do just as he pleases," said a careful housewife to her neighbor.—Chicago American.

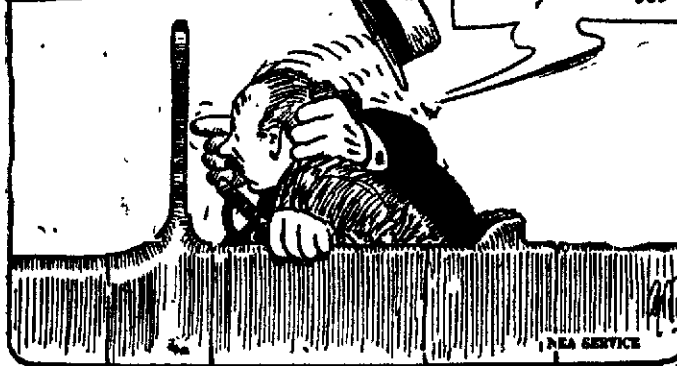

EVERETT TRUE

By Condor

ONE MOMENT, NOW, BEFORE WE START! YOU'RE NOT GOING TO DRIVE BACKWARDS ALL THE WAY THERE, ARE YOU?

THE CONDITION OF YOUR WINDSHIELD MADE ME THINK SO! LOOK AT IT!! I SAY LOOK AT IT BECAUSE YOU CAN'T LOOK THROUGH IT!! CLEAN IT!!! YOU MAY NOT CARE WHETHER YOU RISK YOUR LIFE, BUT I'VE GOT ONE, TOO!!!

OVERCOME BY THE HEAT

Lewis T. Gaylin, assistant treasurer of the Clearfield Trust Company, was overcome by the heat while working shortly after dinner yesterday and was knocked out for a time. Dr. Piper was called and soon had the genial banker "forked end" down again, but he will have to take a day or two's rest before being able to resume his duties.

A bank or trust company is supposed to be the chilliest place in town but that Trust Company office was sure too hot yesterday and we can prove it by the above statement of facts.

Ended That Love Affair. I was thirteen and he was fifteen. He took me to a social one night and we played games and had a good time till it came time for refreshments. Then he bought himself ice cream and cake and sat down near his mother to eat it. He left me standing without refreshment. Before me, that ended my love affair with him.—Exchange.

Cause to "Beat It." I, a young fellow of twenty, stopped in to buy a bath sponge. I stepped up to a pretty young saleslady and said, "I'd like a sponge bath please." Then I saw her face, realized what I'd said, and beat it.—Exchange.

Junior Women's Club
Banquets At Dimeling;
Miss Fulford President

The Junior Women's Club of Clearfield laid aside their business and civic cares for a brief time last evening and enjoyed a banquet, at the Dimeling Hotel at which function the president for the past year turned over the reins of leadership to her successor.

Mrs. F. E. Orcutt, Senior Chairman of the Junior Women's Club made a short address full of good advice to the younger people who are taking up their full share of civic work. Miss Pearl Moore, the hard working and efficient president for the past year also made an address, summing up the work of the club and the possibilities of the future and turned over the seals of office to the incoming president, Miss Laura Fulford. The members of the club presented the past president with handsome bouquets of roses. A feature of the evening was the singing of Miss Margaret Wilson and the recitation of Miss Pauline Fleck.

A success in every way the thirty-three members who were present look forward to many such happy events.

China Uses Ancient Methods. The only modern-type paper mill known to have been tried in China failed on account of location, small local market and impatience for dividends. Four special papers made by old methods are: Bark paper, from the paper mulberry; so-called rice paper, sliced from a pith; coarse paper, from rice straw or reeds; and bamboo paper from young bamboo trees.

Fear Observatory Near Mt. Etna Is Lost By Explosion

Catania, June 27.—An explosion occurred in the center crater of Mt. Etna today, sending the volcano's crest in a southerly direction.

It is feared the observatory from which Etna's latest manifestations were being observed has tumbled into a newly gaping crevice whence new lava flows are pouring at the great rate speed yet obtained by the volcano's molten emissions.

Believed about to sink back into a troubled slumberous state, Etna now is smoking violently. Once more a great cloud of ashes is being sifted over the southern sides of the volcano.

COMMUNITY VACATION DAILY BIBLE SCHOOL

Last night, in the Presbyterian church, the General Committee covered most of the arrangements for the school. This movement which has proved such a popular and profitable enterprise in hundreds of small and large places, has stirred the religious people of this town. The inquiries that are being made indicate much interest. Voluntary enrollment is promising. What the parents will do is sure to exceed the voluntary application of the children themselves.

The school will open in the High School Building, Thursday July 5, continuing for 15 days, not including Saturday and Sunday. The sessions are to be held only in the morning, from 9:15 to 11:30. There is no charge for either tuition or the supplies that will be needed. And the school is open to all children, irrespective of creed, church, color and nationality. All children, boys and girls of four years of age and more, will be welcome. The School will be divided into three divisions, first children up to eight years of age; second, nine to eleven; third, all more than eleven.

One of the objectives in the assembly period which opens the session, will be Americanization. This will be impressed by a word of history, a great name and the pledge to the flag.

Inquiries about the School should be made of Miss Katharine Lockey, Deaconess of the Presbyterian church at the Presbyterian manse, by phone.

Mrs. Laura Stewart and daughter Elizabeth and Mr. and Mrs. M. T. Brown have returned from a motor trip to Grand Rapids, Michigan, where they went to meet Miss Grace Stewart who has been teaching there.

home after spending the week-end with W. S. Bouton and visiting Mrs. Townley's sister at the Clearfield hospital.

FORMER RESIDENT SERIOUSLY ILL

Mrs. James Starn, of West Third avenue and her son O. P. Starn, drove over to Bellefonte yesterday to visit her brother David Price, who is very critically ill. Mr. Price is a former well known Clearfield county resident and civil war veteran, having resided in Karthaus and Clearfield before settling in Bellefonte.

Taking the Cure
Mrs. Pick—"Your husband seems to be getting quite thin." Mrs. Portleigh—"Yes, poor fellow! You see, I was getting so dreadfully stout we have to diet."—Boston Evening Transcript.

GREAT MASS OF PROOF

Reports of 50,000 Cases of Kidney Trouble, Some of Them in Clearfield.

Each of some 6,000 newspapers of the United States is publishing from week to week, names of people in its particular neighborhood, who have used and recommended Doan's Kidney Pills for kidney backache, weak kidneys, bladder troubles and urinary disorders. This mass of proof includes over 50,000 recommendations. Clearfield is no exception. Here is one of the Clearfield cases.

O. P. Conklin, 414 Nicholas St., Shoemaker, says: "I suffered with my kidneys. I was drowsy and became dizzy. I also had headaches and severe pains in the small of my back, which caused a lot of annoyance. It was difficult for me to stoop on account of the trouble with my back. Doan's Kidney Pills helped me wonderfully, though, removing the pain in my back, dizziness and drowsiness. The headaches also went away."

Make Mother Happy With An AutoMatic Washer

What better gift could family give Mother than one of these splendid laundry servants? Think how highly it would be appreciated, how useful it would prove in your home.

And consider the great saving of her time, the worry and labor it would remove, the expense of laundry bills, or the expense of washwomen it would eliminate.

This Model 214-C Copper Tub Automatic Electric Washer, with its electrically operated swinging wringer, will prove a wonderful boon to Mother every washday, week after week, for many years.

The choice of women who know because it is a washer with distinctive qualities.

This Automatic Electric Washer surpasses even human ability in the performance of those duties associated with the family washing, for it is designed and built to do such work quickly and thoroughly.

It requires no watching, coaxing, help or advice of any kind—you simply turn the electric switch and away it goes, pushing the clothes back and forth through the hot suds and steaming water until they are spotlessly clean and sanitary.

Why not come in and see it demonstrated?

Such action will incur no obligation on your part.

GOVERNOR, BACK ON JOB, FACES NEAR ENDLESS TASK; MUST CONSIDER MORE THAN 500 BILLS; LEWIS BUCKS AGAIN

Harrisburg, June 27.—Some of the most vexing problems of his administration faced Governor Pinchot today when he returned from his vacation. He is to spend two days here cleaning up the mass of business that has accumulated during his absence and then leave for another week in seclusion.

The first defect in the administration came up today when Auditor General Lewis notified the Governor that he had refused to certify the payroll for departments under executive control.

Lewis takes the stand that under the code the Governor is vested with supreme authority even to the certification of every salary under him. In the elective departments this is unnecessary, according to Lewis, because those positions were unaffected by code changes.

More than 500 bills have been placed before the Governor for consideration, who has 18 days remaining out of the 30 to dispose of this business left with him by the legislature.

During his absence several hundred bills were gone over by the Attorney General and his deputies and submitted with recommendations.

The 300 hospital and institutional appropriation bills likewise confront him. These and the general appropriations bill, carrying \$83,000,000 for departmental expenses, have been passed to the house by Doctor Clyde King, the budget official, who undertook this for the Governor, while he was away. This notwithstanding \$2,000,000 has been leopped off the general bill.

CAR PREFERENCE BY RAILROADS BANNED BY I. C. C. ORDERS

Washington, D. C. June 2.—Railroads were forbidden today by the Interstate Commerce Commission to give any special supply of cars to bituminous coal mines whose product is intended for railroad fuel, or to give mines which own coal cars their own preference in car supply.

The order was issued to become effective September 1, and represented the commission's conclusions in a long controversy between railroads and coal owners over the rules now regulating the distribution of railroad cars, especially as they operate in times of shortage.

Heretofore it has been the practice of railroads to allocate equally among mines which they serve, in proportion to production capacity, such cars as have been available. At the same time mines which produce coal for railroads have been assigned additional cars for the purpose of getting out railroad fuel. In addition those mines whose owners have purchased private cars have been held under special railroad practices to be entitled to all of their own cars available and to a pro rata share of the railroads equipment in the district.

Four Commissioners Dissent
The commission divided in reaching its conclusion, and Commissioners Potter, Hall, Daniels and Cox, dissented, in whole or in part, from the majority in ordering the abolition of the assigned car practices.

The situation in reference to anthracite car supply was not touched. About \$30,000,000 has been invested by coal mine owners in private cars for coal shipment and the commission remarked in the majority decision that such investment was of "no practical utility to owners except during car shortage periods."

Many public utility companies and manufacturing and industrial corporations who also own coal cars, the commission decision said, will be deprived of the privilege of getting a

(Continued On Page Three.)

MRS. WARBURTON IS NAMED TO EMINENT PARTY POSITION

Philadelphia, June 27.—Mrs. Barclay H. Warburton, vice chairman of the Republican state committee, has been named as Pennsylvania's first woman associate member of the Republican national committee, Senator Pepper announced today.

Mrs. Warburton is the wife of Barclay H. Warburton of Philadelphia, director of public welfare. She is the daughter of the late John Wanamaker and for several years has taken an active part in political matters in Pennsylvania.

"I am deeply gratified to have been named for the place," Mrs. Warburton said when notified of having been named as vice chairman. "It seems to me that this is recognition by the Republican party of the importance of woman in the affairs of the nation."

COLLAPSE OF FLOOR SENDS 32 ORPHANS TO TERRIBLE END

Calcutta, June 27.—The bodies of 32 children have been recovered from the ruins of the Mohammedan orphanage here, where a floor collapsed beneath 250 orphans crowded into a room. Thirty-two others escaped with injuries but the exact casualties are not yet known.

Constantinople, June 27.—President Masaryk of Czechoslovakia is critically ill but his physicians are optimistic as to his chances of recovery. The Czech president's wife, a former Brookline, Massachusetts, girl, died recently.

ANCESTRAL RELICS WIPED OUT IN BIG FIRE AT PEKING

Peking, June 27.—Fire swept thru the forbidden city today. The ancient imperial historical hall containing ancestral relics of all the emperors, was destroyed, together with dozens of smaller buildings surrounding it.

Wooden plaques, upon which were carved history of dynasties, stretching back into almost forgotten ages, were destroyed by the flames and stories of many centuries before Christ were consumed.

According to seemingly conflicting reports, the fire was of incendiary origin. Servants are reported to have sold valuable curios to American and British tourists and they set fire to the ancestral hall to escape detection. Little credence is attached to the report that the fire resulted from a plot to drive the emperor from Peking. The emperor's palace was not damaged, according to police, and the emperor's life was not threatened.

Tokio, June 27.—Jane Addams of Hull House, Chicago, underwent a surgical operation at 9:00 a. m. here today.
The operation was pronounced successful and Miss Addams' recovery is expected.

TWO KILLED IN STORMS SWEEPING OVER VICINITY OF WILKES-BARRE; BOX CAR BLOWN OVER ON ONE VICTIM

Wilkes-Barre, Pa., June 27.—Two persons were killed, half a dozen injured and property damage amounting to \$300,000 was done by the severe electrical storm which swept this section last night and early today, according to reports reaching here.

Thomas Griffith, aged 36, of Plymouth, was instantly killed while working on a transformer when a

JOB HOLDERS UNDER PINCHOT MUST GIVE ASSURANCE THEY WILL STAY ON WATER WAGON; DEMANDS FIDELITY

Harrisburg, June 27.—Governor Pinchot announced today that he will exact from every appointee under his administration a pledge of obedience to the 18th Amendment and the Volstead law.

The Governor, reiterating his inaugural declaration on adherence to the dry law as "part of the law of the land," said that no one will be appointed to any position under his administration who will not give his word of honor that he will support, defend and personally obey the constitution of the United States, including the 18th Amendment and national and state laws enacted to carry that amendment into effect.

Appointees must further be in full accord with and undertake loyalty to support the policies of the administration, Pinchot said.

"I do not propose to tolerate any baring from within against the policies which I was elected by the people to carry out," he said.

Elks Are Asking Help To Transport 3,000 Kiddies To The Park Tomorrow

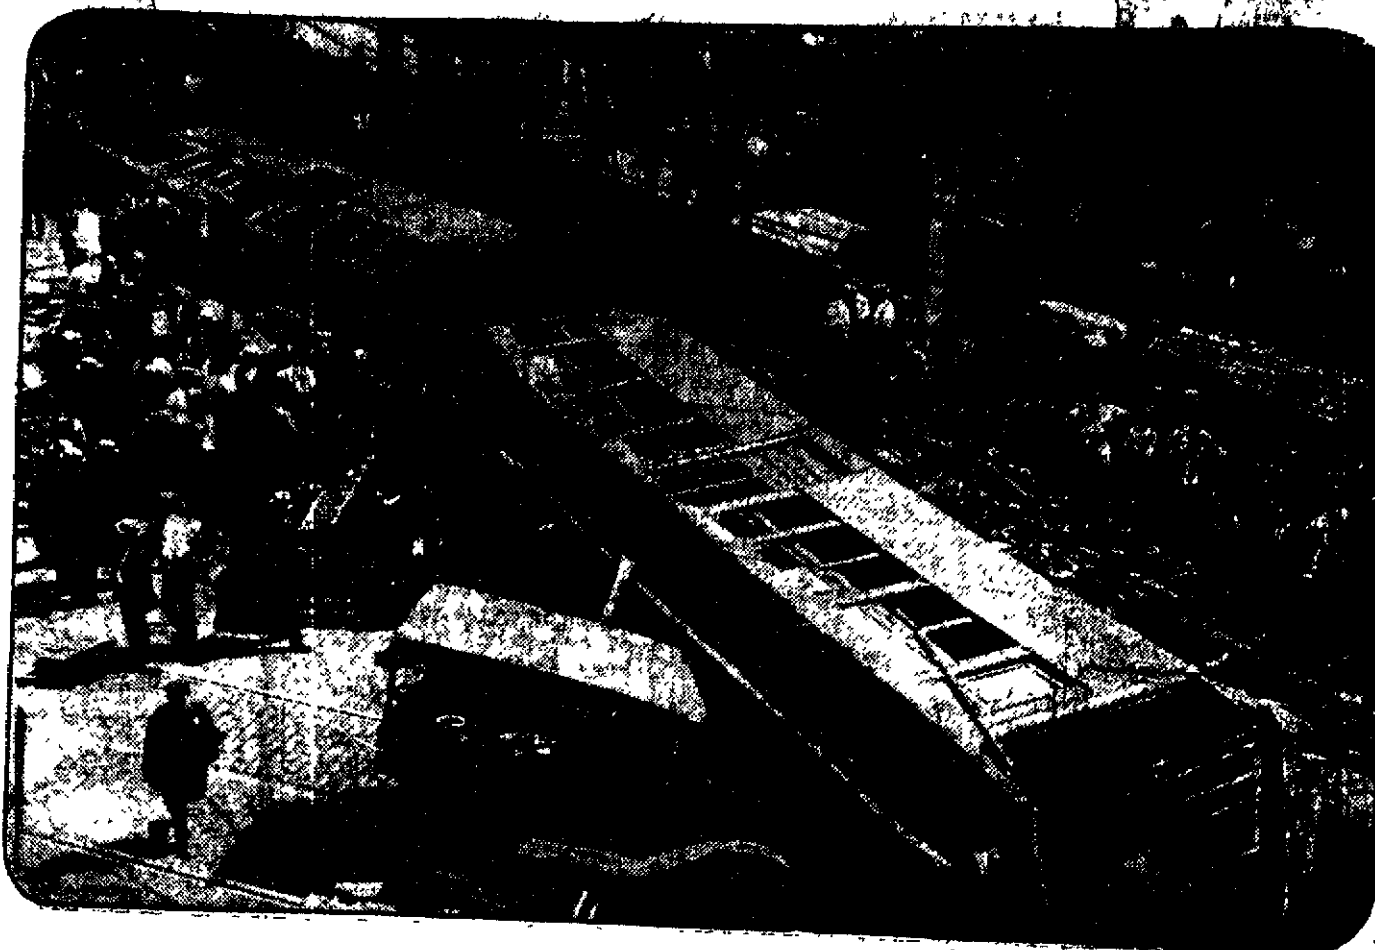

The Transportation Committee in charge of that detail of Elks Kiddie Day, which will be featured at the Clearfield Park tomorrow would like all car owners, whether Elks or not, who can possibly do so, to be on hand at the Court House corner tomorrow morning at 10 o'clock for the purpose of helping to take the little folks to the park. It is some job to transport 3,000 kiddies and any assistance along this line will be greatly appreciated by the Elks. Also the kiddies who will be in a big rush to get there.

The Elks will look after the kiddies tomorrow but would like to have all grown ups who care to do so to take their baskets to the Park and enjoy an old fashioned picnic.

There will be music and dancing in the evening.

Albert Bloom of Baltimore, Md., is visiting his aunt, Mrs. C. J. Fisher on Turnpike avenue.

WHERE SEVEN DIED IN CRASH OF ELEVATED TRAIN

This picture was taken shortly after a two-car elevated train crashed to the street at Flatbush and Atlantic avenues, Brooklyn, N. Y., killing seven and injuring 87. Note auto truck trapped under the falling train.

LIGHTNING PLAYS QUEER PRANKS IN CITY YESTERDAY

It Struck at Least Four Places In Borough, Although But Very Little Damage Was Done.

STARTLESTANNERS

The first real rain storm in weeks hit Clearfield yesterday afternoon and much welcome rain descended on the town and several Phillipsburgers for about ten minutes around about 3 o'clock. The rain was accompanied by a generous portion of hail, while the electrical display was fierce and terrifying.

During the storm two houses in Third Ward were struck by lightning, but beyond knocking a few slates off a roof and scattering dirt and soot about the houses little damage was done. A woman living next door to one of the houses struck was knocked down by the lightning's flash, while, strange to say, the woman in the house upon which the bolt fell never knew her house had been struck until her attention was called to the slate knocked off the roof.

Down at the Elk Tanning Company's plant a bolt of electricity entered the window and flashed and snapped around and about several of the machines in the tannery. The only damage done was to the heads of several of the fellows working about these machines, who broke their hair off trying to keep their caps on while the juice was dancing from the metal object to another around and about them.

The rain came in two sections; showers and between showers a bolt of lightning knocked a hole in a chimney at the residence of Hazard A. Murray on Front street. The flash set fire to the shingles of a gable and resulted in the fire alarm being sounded. The firemen were quickly at hand and the fire was smothered with but very little damage.

Murray says the fact that he had his political lightning rod up had nothing to do with this visitation.

London, June 27.—The German mark reached 680,000 to the pound sterling shortly before noon today.

HARRY MITCHELL IS HEAVY LOSER; BARN BURNED LAST NIGHT

Sixteen Head of Fine Livestock Burned In Fire of Unknown Origin During the Night.

SMALL INSURANCE

The large bank barn on the Jack Mitchell farm, located on the Ridge road beyond the Stone House farm of James Mitchell, was entirely destroyed by a fire of undetermined origin which broke out about 1:30 o'clock this morning.

The farm is owned by Harry Mitchell and was located on the opposite side of the road from and a short distance beyond the house. The fire was first discovered by a farm hand named Miller who works for M. V. Mapes at Clover Hill, half a mile away. Mr. Miller ran across the fields to the Mitchell place. He was on the scene ahead of everybody else and found the Mitchell family asleep and entirely oblivious to the destruction being wrought by the fire fiend at their very door.

When Mr. Mitchell jumped out of bed the entire barn was a mass of flames, while the squealing and noise made by the cattle and horses being roasted to death were appalling.

The out of town fire alarm was sounded here at 1:55 and a large number of firemen and citizens went to the scene and assisted in saving the house and outbuildings in the neighborhood of the barn.

The barn and a large silo immediately adjoining were quickly consumed, while eleven head of fine milch cows, two calves, three valuable horses and a number of chickens were also burned to death. In addition to the livestock, a gasoline engine and full complement of farm implements were also destroyed.

Mr. Mitchell is unable to account for the origin of the blaze as there

(Continued On Page Two.)

COWDRICK PITCHES PIERCE'S OUTFIT TO BIG VICTORY

"Y" Secretary Has Put Real Team in Harness; Adrian, Pride of Punxsy Region, Falls Hard.

DESERVE SUPPORT

Manager Pierce's American Legion team hid themselves over to Adrian yesterday afternoon and won an intensely interesting game of baseball from the Adrian team. The game developed into a pitcher's battle between Guy Cowdrick and Ryba in which the former won out by the narrow margin of a 1 to 0 score.

Adrian got but four hits off Cowdrick, who pitched the best game of the season for Clearfield. Ryba was almost equally as effective as our sluggers got but five hits off him. Peterson at short and Catcher Shaulis were the fielding stars for the locals.

WILL TAKE GAS IN AIR IN EFFORT TO STAY IN FLIGHT FOR FOUR DAYS; TESTING OUT NEW FUELING DEVICE

San Diego, Cal. June 27.—At 4:05 a. m. today Captain Lowell Smith and Lieutenant John P. Richter took off in an army airplane in an attempt to remain aloft for four days. If they succeed in this exploit, all existing records for sustained flight will be matched.

The projected endurance trip was made possible by perfection of a plan to re-fuel the airplane while in flight. In preliminary trials 50 gallons of gasoline were passed from one plane into the fuel tank of the other while both were traveling 90 miles an hour. This system will be used in the test which started today.

MONSTER PARADE FOURTH OF JULY IS NOW A CERTAINTY

Business Men Combing Forward Strong Will Promises to Make The Year Eclipse Others

EVERYBODY ENJOY

For the last two years the American Legion local post in Clearfield with the business men of Clearfield have given to the people of Clearfield and the surrounding communities a part of the Legion's 4th of July celebration, a monster industrial parade which has been a credit to the town and the community.

This year the Legion post which they began their 4th of July plans feeling that the business people of the community had responded so well in the past and had gone to considerable expense in order to place the exhibits in the parade, seriously considered dispensing with that part of the celebration and had about decided to give to the people of the community only a small parade of veterans organizations and bands; but information was received from several sources that the majority of the business people not only desired but expected to be asked to do their part in the furnishing to the community a parade worth having. So the plan was changed and on the 4th of July 1923, the Legion's Independence Day celebration will be opened by a parade bigger and better than ever before.

Cards were sent to business people and they were requested to advise whether or not they desired to add exhibits in this parade. The response has been tremendous. A partial list has been printed in the Progress and a supplementary list will be printed later. There will be more floats from more organizations represented in the parade than ever before. The Legion has secured bands from Curwensville, Grampian, Woodland and Wallace to assist our own local Italian and American Legion Bands in furnishing plenty of music for the parade and band concerts at the park afterwards. The Legion itself will turn out in army uniform for probably the last time in Clearfield as the old O. D. J. getting badly moth-eaten and wrinkled.

All that the Legion and the business people of Clearfield ask of the citizens of Clearfield and community is that they turn up in tremendous numbers to witness this spectacle. It will be worth coming miles to see.

DEMPSEY HOLDS OUT FOR FULL PAYMENT AT SHELBY, MONT.

Great Falls, Mont., June 27.—Jack Dempsey, world heavyweight title holder, may blow from the state of Montana without striking a lick if Tommy Gibbons, the challenger, offers him \$200,000.

Jack Kearns departed last night for Shelby to grapple with the promoters over the issue of whether Dempsey will wait the third installment of \$100,000. If Kearns refuses to shift the present price and the promoters fail to come across with the third installment of \$100,000, Dempsey has the right to come back home and there is no feeling to deter him. So uncertain has the fight become that Kearns stated the motion picture rights were worth only about \$15,000 and possibly not that.

Navy Yard Workers Get A Ten Per Cent Increase In Wages, Effective 1st

Washington, June 27.—Workers in navy yards throughout the country will be given a general ten per cent advance in wages, it was learned today, effective July 1. Secretary Denby has approved a report of the Navy Wage Board, headed by Rear Admiral Robinson, and the new wage scale will be promulgated Saturday.

Myer Ganz of New York transacted business here yesterday.

THE OLD HOME TOWN

By Stanley

Harry Mitchell

(Continued from Page One)

was no light or fire of any kind in or about the barn. Last evening he hauled three small loads of hay into the barn, in fact the loaded wagon was left standing on the barn floor, and it is thought the fire was due to spontaneous combustion from the new hay. The idea was advanced by some that the fire was caused by lightning, but at the time the fire broke out the heavens were clear as a bell and no sign of electrical storm existed.

Mr. Mitchell's loss will amount to six or eight thousand dollars, with but \$2,100 insurance.

To Be Happy at Work.

If you are the sort of woman who cannot work well except under pleasant conditions, it is economy to buy the things that mean this to you. It may only be pretty curtains, light woodwork or a certain kind of wallpaper, but it means everything to certain types of women and results in much more being accomplished.

Rushin on Cheapness.

"All works of quality must bear a price in proportion to the time, skill, expense and risk attending their manufacture. Those things called 'cheap' are often when just estimated, the cheapest, they are attended with much less profit to the artist than those things which everybody calls 'cheap'."—John Ruskin

WEDDING GIFTS

There are always weddings and you'll find that we have a lot of gifts for the occasion here that will be appropriate in every sense of the word.

There's no use in putting a vast amount of money in a gift of this sort when we have a wonderful array of them here at prices that will be surprisingly low after you have shopped around and seen others.

Come in any time and make your selections. A small deposit holds the gift until you are ready for it.

ELEVEN BURIED IN COLLAPSE OF WALL AT PHILADELPHIA

Philadelphia, June 27.—One man was killed and three others seriously injured today when the walls of a building being razed at 17th and Addison streets collapsed without warning, according to the police.

Eleven men, all negroes, were working on the building when the walls buckled. Five of the workmen were buried under tons of debris. Firemen dug feverishly in the ruins to release the men. William Smith, aged 42, died before rescuers reached him.

Wise Child.

It's a wise child that pretends it can't understand the words its parents spell to one another.—San Francisco Chronicle

THE MORE MILK YOU DRINK THE BETTER YOU WILL FEEL

That is the verdict of hundreds of people who have started in on a diet which is composed mostly of our milk. They have been feeling sort of run down and as if they didn't care whether school kept or not. They have started in on the milk and right soon they have started to feel a whole lot better.

The milk they drank comes from farms where the cows are fed for a high powered milk. This milk comes to our plant and goes through the pasteurization process, which eliminates the possibility of disease.

Start in yourself and feel better.

Valuable Gum Mines.
Probably the only gum mines in the world are in New Zealand, where there is a whole district in which fossilized gum from trees that died centuries ago is found a few feet below the surface. The substance is valuable, for it makes the best kind of transparent varnish, and many fortunes have been made by men who have worked it.

Thought for the Day.
If your boss doesn't see that you are worth more until another office offers you more, you had better work for the man to the better pay right.

Why Bluebirds Are Welcome.
Bluebirds are a good omen when
they build near your home, for they
will not build where there is strife.
According to the old English saying,
a young married couple may look for-
ward to happy married life if a pair
of bluebirds sets up housekeeping with
them.

Friendly Philosophy.
Nature punishes neglect and plays
as favorites. The neglected field be-
comes an unsightly mass of tangled
brambles and rank weeds; the un-
drained swamp a stagnant cesspool—repulsive
breeds place of varied life and poison-
ous growth; the human brain an un-
clean generator of falsity and soul-
blasting ideals unless directed into
channels of realism and truth. Neg-
lect is indeed costly.—J. E. F.

ODDS AND ENDS AND THINGS

By J. L. C.

The first day for circulating non-
nominating petitions for the coming fall
primary election is Thursday, July
12th. No nominating petition can be
legally signed before that date and the
County Commissioners, whose
duty it is to supply these blanks to
the candidates for office at the pri-
mary are not allowed to issue any
such blank previous to July 12th.
When signed and sworn to the blanks
must be filed in the office of the County
Commissioners not later than
Tuesday, August 21st, which is the
last day for filing.

People are becoming more humane
in their treatment of dumb animals,
according to F. E. Hutchinson, man-
ager of the Detroit Humane Society,
basing the statement upon personal
observations over a period of many
years, and upon letters from those
engaged in similar work in various
cities of the country.

"There are two reasons for the suc-
cess of the humane movement," Man-
ager Hutchinson said. "The most im-
portant work is being carried on in
the public schools. School children are
being drilled from the kindergarten
on, that it is manly and womanly to
be kind to all helpless creatures."

"As a result boys and girls are
looking out for the interest of the
birds and animals as never before.
They personally are watering and
feeding animals in need of attention
and do not hesitate to call to the at-
tention of the proper authorities any
cases of inhumane treatment they ob-
serve."

"The second reason is that men
dealing in animals have discovered
that it pays in dollars and cents to
be humane. Cattle buyers are begin-
ning to insist that the animals under
their charge be humanely treated. To
do otherwise decreases the value of
the cattle and brings them heavy
losses. Some of the animal dealers
now are our warmest exponents of
humane treatment of animals. They
are compelling their employees to
practice this."

"There is still another reason and
that is the American spirit of fair
play. No normal American cares to
injure anything that cannot fight
back."

Cholera, typhoid, typhus, typhoid
fever, tuberculosis and malaria
have at last become controllable, says
Sir George Newman, chief medical
officer of the British Government. The
antitoxin treatment of diphtheria has
reduced the death-rate in that disease
from 29.8 per cent in 1890 to 9.3 per
cent in 1922, which means that 200
additional lives are saved in every
1,000 cases. In 1871 enteric fever
claimed 374 lives in each million of
the population; in 1922 it was twelve
in each million.

"We are living in the golden age of
medicine," says Sir George. "Unper-
ceived it is rapidly changing the face
of the world and the destinies of men.
The extension of the frontiers of life
is assisted by fresh air and sunlight
in dwellings, sanitation of workshops,
wholesome water and food supply,
and the isolation of infectious per-
sons. The result of this is seen in
the fact that every child born today
has an expectation of twelve years
more life than had his grandfathers."

Ancient Manuscripts.
The oldest manuscript written on
cotton paper in England is in the Brit-
ish Museum and bears the date of
1049. The most ancient manuscript
on the same material in the Library
of Paris is dated 1050. In 1085 A. D.
the Christian successors of the Span-
ish Saracens made paper of rags in-
stead of raw cotton, which is recog-
nized by its yellowness and brittle
ness.

Diakka an Evil Spirit.
Diakka is a very evil and powerful
spirit corresponding in some respects
with the Jinn. In Mohammedan mys-
thology the Jinn are good and bad spir-
its who assume the form of animals,
plants, etc. In this same mythology
there are also the Janms or demon
of the lowest order. On old Persian
tales they are referred to as the Ahrim
but Longfellow, in his "Golden Mile-
stone" (stanza 2), refers to them as
belonging to Arabian story.—Literary
Digest.

Not All of Fishing to Fish.
The fisherman whose catching of
fish causes him to forget his sur-
roundings, blinds his eyes to the beau-
ties of Nature, and drenches his ears
to the music of the wild, is no angler
—O. W. Smith.

Rainy Day Treasures.
Rainy days may be brightened for
the child if he has a scrapbook which
he uses on rainy days only. This
may be made of cambric, pages about
9 by 12 inches in size, stitched to-
gether. Magazines and picture post-
cards may be saved for these days,
and the child may cut out and paste
for many long periods, with great
pleasure.

Car Preference

Continued from Page One

special supply in such equipment in
times of coal or car shortage. Their
equipment also must be distributed
pro rata among mines and not fur-
nished to any mine from which they
purchase coal in addition to the
mines pro rata share of the rail-
roads' own cars.

Private coal car ownership, the
commission held, would result "in in-
creasing gross inequality" between
users of coal, if the special assign-
ment rules were allowed to continue.
There also might result, it was de-
clared, a practice of installing pri-
vately owned locomotives and pri-
vately employed train crews.

Commissioner Potter, in a dissent
said the commission in the case be-
fore it had "one of the roots of eco-
nomic and industrial disturbance"
but had "only nurtured the evil and
attempted to find a way to get along
in spite of it."

Sees Conditions Getting Worse
"The conditions that prevail in
the bituminous coal industry," he
declared, "have been going from bad
to worse during the last decade.
They are a wasteful burden on eco-
nomic life and breed discontent in our
social order. The allurements of
profits have led to gross over expan-
sion. Excess capacity beyond what
the market demands means idleness
in the same ratio of mines, equip-
ment and men."

"Mines cannot run full time be-
cause 11,000,000 or 12,000,000 tons
of coal a week for a considerable
period would glut the market. They,
therefore, run only two or three days
a week. In order to support men
working on half-time costs per ton
have so increased that mine wages
are out of all proper relation to
wages paid on the farm and by rail-
roads and other industries. Com-
mon laborers make \$7.50 a day;
loaders make from \$15 to \$18 a day;
runners of cutting machines make
from \$18 to \$20 a day; runners of
gathering locomotives make from

\$18 to \$20 a day. The result is that
to produce coal is costing upwards
of \$2 a ton, whereas 10 years ago it
was costing about 75 cents a ton.

"Reduction of high coal production
costs," Mr. Potter asserted, "is a
public necessity. A sustained sur-
plus of coal will bring reduction.
Everything is favorable for that sur-
plus except transportation. The im-
mediate answer to the problem is the
assigned and private car. They will
bring about continuous operation of
efficient mines at low cost. Men
would drift to mines thus continu-
ously operated, which is what should
take place. High cost mines would
have to shut down and that is ex-
actly what the situation calls for."

Stands Up for Mother.
Martha, age four, was playing in
the room where her father and mother
were having an argument along the
lines of "I'd be in favor of that."
"Well, I wouldn't," etc. She stopped
playing, went to her father and said:
"Now, daddy I want you to under-
stand that mamma is boss in this
house."

BATHING CAPS

Madam, when you go
for your cooling dip in the
river or in the "Y" pool,
we have the rubber caps
here that will keep your
hair dry. We have a wide
variety of caps, both as to
colors and styles.
Come and get yours
while the stock is wider.

The new state code is certain to have its "growing pains." All infants do. It would not be a good omen if, under the new code, there would be no fiction, no groaning, no, rather, a hopeful sign when squeals are heard. If the change from the old system to the new could take place without a lot of vexatious problems arising it would hardly be worthwhile.

Truly a great task confronts the Governor. He has over a hundred bills to look over and approve or disapprove. In between times he must see that the provisions of the code are being carried out. "Grandma" Lewis, who does not like the idea of Mr. Pinchot taking his "cheed," the business of the state, out of his hands, is holding up his arms and gesticulating with great alarm.

He need have no fears—yet. The affair is in good hands. There will come a time, however, under this same code, when the people of Pennsylvania will wish that the responsibility had more on departmental heads than with one man. It will be Mr. Lewis to shout then.

OUR RAILROADS
By Dr. Frank Crane
(Courtesy the New York Globe.)

It is about time that "We, the people," realized that the roads of the country are our railroads.

They do not belong to somebody else with whom we are making a bargain. They are an integral part of every man's business.

There is not a mouthful you eat, a bit of clothes you wear, any tools you may employ, that are not directly or indirectly affected by the railroads.

Transportation is the very life blood of modern civilization. Not only the comforts we enjoy, but the degree of culture to which we have attained is entirely dependent upon the swift and smooth transfer of both goods and people from one section to another.

Whether the dominant interest of the whole public in railroads shall be owned and operated by the Government or not is a question that has not yet been worked out. But no one can deny that every railroad, being in the nature of a public highway, is, at least, quasi public.

Our immediate duty, the duty of every citizen, is not to champion public ownership, not to form his own opinion about these things, and be willing to wreck everything to maintain his opinion, but to take such an attitude on the whole subject as shall enable the situation to be worked out without violence or loss by the normal processes of business and government.

The disposition to attack the railroads is deplorable. Eliaha Lee, vice-president of the eastern region of the Pennsylvania Railroad System, in an address the other day at Philadelphia, used these strong words:

"Plans are being laid to make the railroads the football politics with the re-assembling of Congress next fall, and again in the presidential campaign of 1924. To speak in plain language, there are men who, for the sake of the votes necessary to get or hold a political job, would be willing to wreck the railroads at the very moment when the country needs their services as never before.

There is no question of intentions. They have been proclaimed openly. Any man for the sake of office and power will play sectional or class prejudices against each other for the purpose of precipitating a breakdown of the railroads at this critical period is morally, if not in the exact legal sense, guilty of treason against his country. I know that is a strong statement. I have considered it carefully and believe it is fully warranted by the facts."

We do not want railroads to own the country, and we do not want great wealth units to use railroads to oppress the country. But neither do we want, in order to strike at some man or groups of men we suspect, to cripple or hinder the great business of transportation, upon which the prosperity of the whole nation depends.

It is all right to smash your opponent on the nose if you can do it and you think he needs it; it is quite another matter to cut off your nose to spite your face.

IT IS THE BANK'S DUTY TO ENCOURAGE THRIFT

While the County National is primarily a commercial bank, it is not unmindful of the duty of the bank to encourage thrift.

With that end in view it has a well organized Savings Department which welcomes the accounts of savers, however small or large they may be.

On such accounts 3% interest, compounded semi-annually, is paid.

The Savings Department has deposits of over \$1,480,000.00.

The Savings Department conducts a Christmas Savings Club with 667 members for 1923.

Your Savings Account is invited.

Million Dollar Rain Fall Over In DuBois, Where They Grow Strawberries

DuBois, June 27.—One of those "million dollar" rains prevailed yesterday afternoon, and this time DuBois was favored by the weather man, receiving the full benefit of the down-pour. The rain came a little too rapidly for properly soaking, but at that the soil was given the best bath that it has received for several weeks. There were several showers during the afternoon but the heaviest came along about three o'clock, and continued for fifteen minutes.

The rain laid the dust in fine shape and it was excellent driving right after the showers.

Contrary to expectations following a heated spell, the breakup was not accompanied by severe thunder, and lightning storms as is usually the case. It was rather a mild-mannered storm, and no damage was done by the lightning, so far as was reported.

For a few minutes during the afternoon hail fell, but not to any great extent, and no damage was done by it. This hail and rain served to cool the atmosphere somewhat, and it was decidedly cooler last evening.

OLD TIMER VISITS TOWN

Mr. and Mrs. John Wilhelm, of Williamsport, were guests of his sister, Mrs. E. F. McLaughlin, of South Fourth street, while in town today. John Wilhelm is a former Clearfielder who left here almost two score years ago. He located in Williamsport, where he engaged in business most successfully and a few weeks ago disposed of his business and expects to enjoy the remainder of his life living retired. He met a lot of old timers while here who were pleased to meet and greet him.

Strange Experience.
Riding atop the bus a limb of a tree whipped over my glasses, cord and all. Several weeks later while walking through the park with a companion through the park with a companion my glasses, in perfect condition, fell into my parcel which I had lowered to avoid the limb of a tree Journal.

People You Dislike.
I never know which class inspires more horror in me—the people who tell you things you did know of the people who tell you things you didn't. The former insult one's intelligence, the latter one's lack of it.—From "Memories of the Future" by H. A. Knox.

In the Long Ago.
Roger had spent a last summer work in the country, and a few days ago we stopped at this same farm. The dog barked, wagged his tail and jumping upon Roger, tried to lick the lad's face. Delighted with such welcome, Roger very earnestly said, "Sheep" members me when I was a boy."

Only One Blonde.
Bobby came running home the other day in an excited fashion and breathlessly exclaimed to his mother: "There are four new kittens at Kenneth's house, mother—three brunettes and the prettiest 'babe blonde'!"

Holding an 18-Year-Old Baby.
It is amusing to see an old bachelor holding a baby, especially if she is his daughter.

Whitfield, Wanted For Murder Of Policeman, Is Caught At Detroit

Detroit, June 26.—Cornered by 25 policemen and detectives in a Michigan avenue lumber yard, where for several weeks he has been working as foreman of drivers, John L. Whitfield, wanted in Cleveland, O., for the murder of Patrolman Dennis Griffith, was captured tonight.

Whitfield was traced here from Madison, Wisconsin, through Chicago by Detective Lieutenant Charles Neville of the Cleveland police.

Neville and a squadron of police, heavily armed with revolvers and riot guns, surrounded the plant of the Kern coal and lumber company late today. When men with riot guns had been placed about the yards, Neville accosted Whitfield, who was walking through the yard. Whitfield was startled and made a dash towards a small office nearby. Neville poked a revolver against the fugitive's head and ordered him to hold up his hands. Whitfield then was handcuffed and taken to police headquarters.

Whitfield told officers he would waive extradition and "take his chances" in the Cleveland courts.

NOTICE HORSESHOE WARD CHAIRMEN

The President of the Horse Shoe Club asks all the ward chairmen to turn in their lists of new members so that the tournament schedule can be drawn up and regular playing begun. It is expected to have a more central court so that the games will be accessible to more spectators.

MAY BRINGS SALES OF 171,306 FORDS

Production Only Limiting Factor to Deliveries, So Great Is the Demand.

Detroit, Mich., June 27.—Sales of Ford cars and trucks in the United States for the month of May totaled 171,306 according to a report just issued by the Ford Motor Company.

The May sales were more than 5,600 greater than those of April, due to increased output.

Production has been the only limiting factor in the sales of Ford cars and trucks since January, for at all times orders on hand have been in excess of the manufacturing capacity of the company, great as it is.

The high production schedule which has been in effect the last few months, however, permitted May to show a gain of 44,243 retail deliveries over the corresponding month last year and it marks the fourteenth consecutive month in which sales have gone above 100,000.

May deliveries bring the total of Ford sales in the country up to 732,850 cars and trucks for the five months from January 1 to June 1, an increase of \$232,005 over the same months a year ago, and presenting a record-breaking sales figure.

Under the constantly growing demand, Ford sales for the present year will pass the million mark in July, a figure which would already have been attained had it been possible for the company to bring production up to the orders.—Ad.

Progress Editorial For Women

VACATION WISE
By FLORENCE DAVIES
Are you really vacation-wise or do you follow the beaten path?
To be vacation-wise, you must know what kind of a vacation suits you, and not be content merely to follow the crowd.

There's only one way to know what sort of vacation suits you and that is to begin with the fact that the mind is more important than the body.

If you have a rested mind you won't need to worry about your body. It will take care of itself.

A well-known doctor says that what people need on their vacations is to get their minds rested.

You don't do that the way you rest your body, by sitting still or taking a nap. You rest your mind by a mental change.

The society debutante, whose hardest work lies in dodging tens and dences, gets the best vacation by paying a little attention to her mental health, says Surgeon General A. Cumming of the United States Public Health Service.

That's something for the tired business woman and the busy housewife to think about.

The tired business woman who sees people all day long is very apt to stock up with good clothes and go to a big city or a big resort and think she is having a wonderful time.

What she needs is a self-inflicted exile from all human kind—quiet, stillness, sky, mountains, sea. That's

Curwensville's Own Column

A congenial picnic was held out at the "Pee-Wee's Nest" last Saturday composed of William Post and the members of his immediate family. Those in attendance were Mr. and Mrs. Wm. Post, this place; Denjamia Post and family, Hyde City; Clarence Post and family, of Gramplan; Ernest Post and family, and Miss Annie Post of Curwensville. It was a sort of a family reunion as well as a celebration in honor of Mrs. Wm. Post's 53rd birthday.

Mr. and Mrs. Ed Kennedy, of Du Bois drove over to Curwensville on Sabbath and spent the day with Mrs. Kennedy's parents Mr. and Mrs. I. A. Shaffer, East George street.

Father P. A. Lynch, pastor of St. Timothy Catholic church, went up to Boardman last Sunday and blessed a new Catholic cemetery. A large number of his congregation, as well as people of other denominations, were present and witnessed this solemn and appropriate ceremony relative to the Catholic church discipline.

Dr. Miles Wall who owns and possesses the best and most accurate weather thermometer in this section and who keeps a close tab on its registration every day, informs us that for the past twelve days the degrees of heat has averaged 95. On last Friday the mercury rod outdid itself by pointing to the 102 mark, the hottest day that has been in these mountains for many years.

William Post and wife accompanied by his son, Benjamin Post and wife and Miss Annie Post left yesterday by motor car for a month's visit to the old home folks at Harrison, Ontario, Mr. Wm. Post's native home. After spending a few days at this point, William Post will journey to his old home at Belleville, Canada, for a short stay.

S. C. Watts at a recent Sunday School convention was chosen as a delegate to represent the Clearfield county schools in Scotland, where a National convention is to be held in June, 1924.

A relative of the deceased sends us the following clipping from the Philadelphia Ledger: "Last Thursday Tamadge Port, thirty-two years old, was drowned in Perkiomen Creek, at Collegeville, while giving swimming lessons to Miss Blanche Hammond of Morristown. Mr. Port lives at Centre Point. He was seized with cramps. Friends rescued Miss Hammond." With his parents the unfortunate young man resided in Curwensville in his youth, and was a son of Mr. and Mrs. W. S. Port. He was a nephew of Mrs. A. M. Kirk, of this place. His funeral was held last Saturday and the body interred at Norristown, the home of his parents.

We have been informed that Mr. Black, who so ably coached the High School foot ball team last season, will be chosen as one of the instructors in the High School building for the incoming term. He is an able man not only in teaching school lore but also in instructing a foot ball team and leading them to victory. It would be a good move of the School Board if they could secure his services.

Mr. Stanley Kujawa, who holds an important position as a pharmacist in one of the large drug stores in Pittsburgh, is home for a few weeks stay with his parents, Mr. and Mrs. J. A. Kujawa.

O. C. Norris drove his car to Pitt-

Stop that Eczema!

AMAZING results have been produced by S. S. S. in cases of eczema, pimples, blackheads and other skin eruptions. If you have been troubled with eczema, and you have used skin applications without number, make a test yourself, on yourself with a bottle of S. S. S., one of the most powerful blood cleansers known. S. S. S. makes the blood rich and pure, and when your blood is freed of impurities your stubborn eczema, rash, tetter, skin eruptions, pimples, blackheads, blotches and acne are bound to disappear. There are no unproven theories about S. S. S.; the scientific results of each of its purely vegetable medicinal ingredients are admitted by authorities.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

S.S.S. The World's Best Blood Medicine

burgh last Saturday and on returning on Monday brought his daughter, Mrs. David Dunn along, who will remain in Curwensville until after the Fourth.

Roy Thompson, employed in the Hollidaysburg sanitarium as mail carrier and general helper, was a Curwensville visitor at the Sawtelle home on North Filbert street. He is on a vacation tour and arrived here after a visit in Cleveland, O.

Mr. and Mrs. John McLaughlin and daughter, Mary, left Curwensville yesterday with Ira McCloskey driving the car, for Williamsport and Endicott, N. Y.

Rex McCreary, a foreman in the Harbison-Walker brick plant at Mill Hall, is in Curwensville on a visit to relatives and old friends.

Mrs. Grover Bloom and two children, Ridge avenue, departed on the 8 o'clock a. m. train yesterday for a thirty day visit with relatives in Endicott, N. Y.

Mrs. Milliron, of Dayton, Pa., is a guest in the home of her son, James Milliron, on Scofield street.

Additional Tea Tables

Mr. and Mrs. Samuel Love, Mr. and Mrs. Miles McGarvey and children, and Mrs. May Miles and children of Irvona, spent Sunday with Mr. and Mrs. Victor Stephens, of Mineral Springs.

Mrs. Frances K. Mapes of Clover Hill Farms was a member of the graduating class of Temple University this year. Miss Mapes is now visiting her sister Mrs. Clair Dufford of Abbotville, Ala., and will return to Pennsylvania with Mr. and Mrs. Dufford the latter part of the month.

Mrs. Homer McDowell and two little girls have returned from a visit with Mr. McDowell's parents, Wm. McDowell of Woodland.

Subscribe for the Progress

HEARD ALONG THE BANKS OF THE MOSHANNON

John H. Wade, 21 years of age, passed away at the home of his parents, Mr. and Mrs. William Wade, at Derby Hill, on Monday night at 10:35 o'clock, the result of a tumor on the brain. The deceased had been ailing with rheumatism for some time past and during that time took treatment at the Harrisburg Hospital. He returned home from the latter place after he had been there only a week, and was then somewhat improved. On Monday, June 11th, it was necessary for him to be confined to his bed, and from then on he gradually became worse, death relieving him of his sufferings at the above stated time.

John Hough Wade was born at Gearhartsville and practically his entire life had been spent in that vicinity. He was known for miles around as a fine type of young manhood, kindly disposed and always thoughtful of others. He was liked by all who knew him. His death was a sad blow to his young friends. Adding to the sadness of his passing is the fact that he was engaged to be married, the event to have taken place in the near future.

Besides his parents, these brothers and sisters survive. Mrs. Jos. A. Black, Irvona; Mrs. Jos. Middleton, Cuba Mines; Herschel Wade, West Decatur; Mrs. Chas. J. Hartle, Munson; Clifford, Irvona, and Horace, Martha, Lytle and LeRoy at home. Funeral services will be held Thursday afternoon at 2:30 from the Baptist church, Philipsburg, of which he was a devoted member. Burial will be made in the Philipsburg cemetery.

"Aunt Fannie" Gwland, well known hereabouts as one of the kindest hearted ladies when it comes to doing things for others, helping fire-

Mr. and Mrs. R. P. Dunsmore, of Philipsburg, were shopping in our stores yesterday.

men in their benefit affairs and in all the community welfare events, while at Curwensville Monday night had the misfortune to fall backwards from a porch and sustained a broken shoulder bone with another fracture. The news of the same was very much regretted by her numerous friends here. However, they hope for her speedy and ultimate recovery.

The Daily Vacation Bible school here is attracting a large number of children, the attendance of the beginners at the M. E. church Tuesday being 76 primary and 47 kindergarten at the Church of Christ 294 juniors and 85 intermediates. The vacation school this year is a union affair.

Gust Johnson, who for many years has been the ice cream manufacturer at Winburne, has now taken over the Continental Hotel, Philipsburg and will convert it into an ice cream factory. The consideration of the deal was \$9,000. Philipsburg at the completion of the remodeling work on the newly purchased building will then have two ice cream factories—Hoffman & Runk being the other manufacturers. We bespeak success for Mr. Johnson in his new venture. He will continue to have the Winburne factory in operation.

JOINT-EASE-FOR BURNING FEET

Now that we know that aching, burning feet are caused by trouble in the small bones in the arches of the feet—

And that trouble can only be reached by Joint-Ease, a stainless emollient that soaks right in through skin and flesh direct to the joints and ligaments.

Isn't it about time to discard powders and medicated baths that only reach the outside of the skin?

And rub on Joint-Ease, that in two minutes starts to soothe and heal the inside troubles that cause soreness and burning.

Rub it on tonight and if there is a burning left in the morning it won't be enough to bother. All druggists. A tube, 60 cents.

The Most For Your Money

One MILLION

MORE than one million automobiles now have been built and sold by Willys-Overland.

Many of these Overlands and Willys-Knights are playing a tremendous part in the life of our own community—putting our families on swift wheels—multiplying the earning power of our men—lightening the work of our women—carrying our children to school—bringing our people together.

Today's Overland and Willys-Knight cars are the best automobiles Willys-Overland ever built—and are sold at the lowest price. All past achievements are excelled in beauty, comfort and performance—in the giving of real value.

Reflecting such quality, sales this season are the greatest in our history. The public has registered its appreciation of great value.

Overland Models: Touring \$525, Roadster \$525, Coupe \$795, Sedan \$860, Red Bird \$750.
Willys-Knight Models: 5-pass. Touring \$1235, 3-pass. Roadster \$1245, 7-pass. Touring \$1435, 5-pass. Country Club \$1635, 5-pass. Coupe-Sedan \$1595, 5-pass. Sedan \$1795, 7-pass. Sedan \$1995, all prices f.o.b. Toledo. We reserve the right to change prices and specifications without notice.

Tom Sims
SAYS---

When you see a man looking at the thermometer and laughing he is some soft drink dealer.

The stiff collar is doomed. You can't watch an airplane in one.

More girls are swimming this year. Every bathing place looks like a flock of magazine covers.

Crowds on street corners are not talking politics. They are trying to get across.

Kissing is dangerous. Too much of it will make a man cross-eyed.

President Harding, apparently thinking he has a steady job, has sold his newspaper.

Since most banks already had presidents, many of the June college graduates are still loafing.

Canada is nearly 30 times as large as Great Britain and Ireland, and 40 times as quiet.

New German radio invention stops autos. Maybe some day it will stop photographs.

This 2,000,000 volt lightning made at Pittsfield, Mass., would be nice to have collectors.

Brokers who took \$6,000,000 must serve a year. About \$500,000 a month is fairly good pay.

Prince of Wales got in at two o'clock and smashed a skylight, over where prohibition is unknown.

Privilege in Friendship.

If ever a man is to be a real anything, the sense of privilege will be the sign. A physician to whom doctoring is not a privilege is no real physician. A teacher to whom teaching is not a privilege is no real teacher. A friend to whom friendship is not a privilege is no real friend.

Harry Emerson Fosdick.

Wandering about in the hedgerows.

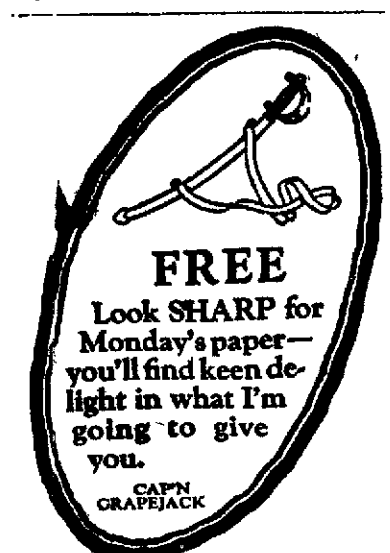

Fifty per cent of our walking sticks come from English hedgerows. Particularly in Herefordshire and Worcester-shire there are miles of hedges which are allowed to grow so tall that the maples build in them. The man who supplies sticks in the rough pays the farmer a mutually agreed-upon sum per hundred for the privilege of cutting them, and these, roughly trimmed and still green, he sells to the manufacturer in the town.—London Daily Mail.

Rotten Time, Promised.

A Japanese invitation to dinner frequently runs as follows: "I beg your pardon for thus insulting you in begging your company at my house to dinner. The house is very small and very dirty. Our habits are rude, and you may not get anything fit to eat, and yet I hope that you will condescend to be present with us at 6 o'clock." You go, and you find everything exactly the opposite.—Boston Transcript.

The Ananias Club.

"I never bawl out my husband for dropping cigar ashes on the carpet or jerking back the lace curtains so he can see out or using the guest towel, or things like that, because I want him to feel his home is a place he is free to do just as he pleases," said a careful housewife to her neighbor.—Chicago American.

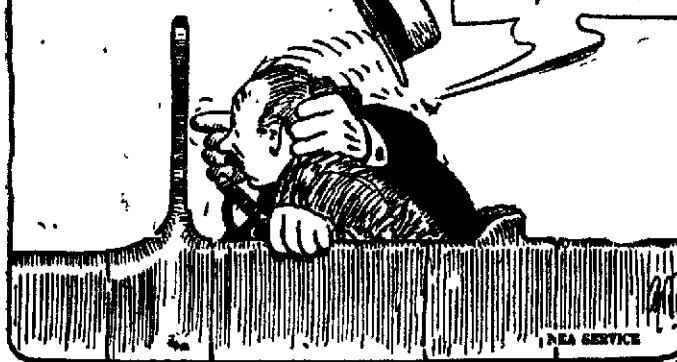

EVERETT TRUE

By Condi

ONE MOMENT, NOW, BEFORE WE START! YOU'RE NOT GOING TO DRIVE BACKWARDS ALL THE WAY THERE, ARE YOU?

NO. WHAT MADE YOU THINK SO?

OVERCOME BY THE HEAT

Lewis T. Gaylin, assistant treasurer of the Clearfield Trust Company, was overcome by the heat while working shortly after dinner yesterday and was knocked out for a time. Dr. Piper was called and soon had the genial banker "forked end" down again, but he will have to take a day or two's rest before being able to resume his duties.

A bank or trust company is supposed to be the chilliest place in town but that Trust Company office was sure too hot yesterday and we can prove it by the above statement of facts.

Ended That Love Affair.

I was thirteen and he was fifteen. He took me to a social one night and we played games and had a good time till it came time for refreshments. Then he bought himself ice cream and cake and sat down near his mother to eat it. He left me standing without refreshment. Before me, that ended my love affair with him.—Exchange.

Cause to "Beat It."

I, a young fellow of twenty, stopped in to buy a bath sponge. I stepped up to a pretty young saleslady and said, "I'd like a sponge bath please." Then I saw her face, realized what I'd said, and beat it.—Exchange.

Junior Women's Club
Banquets At Dimeling;
Miss Fulford President

The Junior Women's Club of Clearfield laid aside their business and civic cares for a brief time last evening and enjoyed a banquet, at the Dimeling Hotel at which function the president for the past year turned over the reins of leadership to her successor.

Mrs. F. E. Orcutt, Senior Chairman of the Junior Women's Club made a short address full of good advice to the younger people who are taking up their full share of civic work. Miss Pearl Moore, the hard working and efficient president for the past year also made an address, summing up the work of the club and the possibilities of the future and turned over the seals of office to the incoming president, Miss Laura Fulford. The members of the club presented the past president with handsome bouquets of roses. A feature of the evening was the singing of Miss Margaret Wilson and the recitation of Miss Pauline Fleck.

A success in every way the thirty-three members who were present look forward to many such happy events.

China Uses Ancient Methods.

The only modern-type paper mill known to have been tried in China failed on account of location, small local market and impatience for dividends. Four special papers made by old methods are: Bark paper, from the paper mulberry; so-called rice paper, sliced from a pith; coarse paper, from rice straw or reeds; and bamboo paper from young bamboo trees.

Fear Observatory Near Mt. Etna Is Lost By Explosion

Catania, June 27.—An explosion occurred in the center crater of Mt. Etna today, sending the volcano's crest in a southerly direction.

It is feared the observatory from which Etna's latest manifestations were being observed has tumbled into a newly gaping crevice whence new lava flows are pouring at the great rate speed yet obtained by the volcano's molten emissions.

Believed about to sink back into a troubled slumberous state, Etna now is smoking violently. Once more a great cloud of ashes is being sifted over the southern sides of the volcano.

COMMUNITY VACATION DAILY BIBLE SCHOOL

Last night, in the Presbyterian church, the General Committee covered most of the arrangements for the school. This movement which has proved such a popular and profitable enterprise in hundreds of small and large places, has stirred the religious people of this town. The inquiries that are being made indicate much interest. Voluntary enrollment is promising. What the parents will do is sure to exceed the voluntary application of the children themselves.

The school will open in the High School Building, Thursday July 5, continuing for 15 days, not including Saturday and Sunday. The sessions are to be held only in the morning, from 9:15 to 11:30. There is no charge for either tuition or the supplies that will be needed. And the school is open to all children, irrespective of creed, church, color and nationality. All children, boys and girls of four years of age and more, will be welcome. The School will be divided into three divisions, first children up to eight years of age; second, nine to eleven; third, all more than eleven.

One of the objectives in the assembly period which opens the session, will be Americanization. This will be impressed by a word of history, a great name and the pledge to the flag.

Inquiries about the School should be made of Miss Katharine Loeckey, Deaconess of the Presbyterian church at the Presbyterian manse, by phone.

Mrs. Laura Stewart and daughter Elizabeth and Mr. and Mrs. M. T. Brown have returned from a motor trip to Grand Rapids, Michigan, where they went to meet Miss Grace Stewart who has been teaching there.

FORMER RESIDENT SERIOUSLY ILL

Mrs. James Starn, of West Third avenue and her son O. P. Starn, drove over to Bellefonte yesterday to visit her brother David Price, who is very critically ill. Mr. Price is a former well known Clearfield county resident and civil war veteran, having resided in Karthaus and Clearfield before settling in Bellefonte.

Taking the Cure
Mrs. Pick—"Your husband seems to be getting quite thin." Mrs. Portleigh—"Yes, poor fellow! You see, I was getting so dreadfully stout we have to diet."—Boston Evening Transcript.

GREAT MASS OF PROOF

Reports of 50,000 Cases of Kidney Trouble, Some of Them in Clearfield.

Each of some 6,000 newspapers of the United States is publishing from week to week, names of people in its particular neighborhood, who have used and recommended Doan's Kidney Pills for kidney backache, weak kidneys, bladder troubles and urinary disorders. This mass of proof includes over 50,000 recommendations. Clearfield is no exception. Here is one of the Clearfield cases.

O. P. Conklin, 414 Nicholas St., Shoemaker, says: "I suffered with my kidneys. I was drowsy and became dizzy. I also had headaches and severe pains in the small of my back, which caused a lot of annoyance. It was difficult for me to stoop on account of the trouble with my back. Doan's Kidney Pills helped me wonderfully, though, removing the pain in my back, dizziness and drowsiness. The headaches also went away."

Make Mother Happy With An AutoMatic Washer

What better gift could family give Mother than one of these splendid laundry servants? Think how highly it would be appreciated, how useful it would prove in your home.

And consider the great saving of her time, the worry and labor it would remove, the expense of laundry bills, or the expense of washwomen it would eliminate.

This Model 214-C Copper Tub Automatic Electric Washer, with its electrically operated swinging wringer, will prove a wonderful boon to Mother every washday, week after week, for many years.

The choice of women who know because it is a washer with distinctive qualities.

This Automatic Electric Washer surpasses even human ability in the performance of those duties associated with the family washing, for it is designed and built to do such work quickly and thoroughly.

It requires no watching, coaxing, help or advice of any kind—you simply turn the electric switch and away it goes, pushing the clothes back and forth through the hot suds and steaming water until they are spotlessly clean and sanitary.

Why not come in and see it demonstrated?

Such action will incur no obligation on your part.
